G. PRESENTATION

Tony Anderson presented the March update to VMRC's Strategic Plan 2014-2018. He covered the five areas of the plan: Housing, Employment, Communication, Resource Development and Organizational Culture.

Housing: A growing number of people with developmental disabilities are in need of housing options that are not met by the current resources. There are five housing projects underway. The Paulsen Project is a joint venture between VMRC and CVRC, and is a secured perimeter/delayed egress facility in Turlock, scheduled to open in January 2018. The Healthy Way of Life facility supports adults with medical conditions such as hypertension and diabetes. Lie Skills is an evaluation/assessment/skill development facility. Housemates is a typical roommate situation. Country Life will be in a rural setting with farm animals.

- Employment: The objective is to increase the amount of individuals aged 22 and above, who are working full or part time in supported, independent and competitive employment. In 2013 the percentage was 6.4%, and currently this number has increased to 8.99%.
- Communication: VMRC has been working on improving the quality, frequency, and methods of communication to VMRC staff, individuals served, families and providers. Currently there are quarterly All-Team meetings. Modes of internal communication include the insideXchange an intranet for VMRC employees, the VMRC newsletter is produced twice a year, and VMRC is increasing social media activities to include Twitter, Instagram and YouTube accounts. There is more connection with consumers and families, and VMRC is providing outreach through a Speaker's Bureau. The Cultural Specialist, once hired, will aim to provide greater awareness of services to different ethnic groups.
- Resource Development: This department plans to anticipate future needs to provide services, opportunities, and inclusion. Four projects were identified and RFP's have been awarded to develop residential needs for the autism population using CPP funding. These include an adult male crisis step-down residential facility, a children's step-down residential facility, an adult male and/or female crisis services step-down residential facility and intermediate care facility/developmentally disabled continuous nursing care facility.
- Organizational Culture: The Communications Committee is disseminating information about policy/procedural changes at VMRC, both for bargaining unit and non-bargaining unit employees. A follow-up survey to ascertain employee engagement is in the process of being created, to see if there has been a change since the last employee survey. Succession Planning was implemented as a pilot project, and two mentoring agreements are continuing. Training opportunities will be increased for employees through the LMS (Learning Management System). The Project Manager has made changes to VMRC's New Employee Orientation which will help when transitioning larger parts of the new employee training to the LMS. The performance evaluation tool is being revamped, individual learning and development plans will help employees reach their career goals. March is national Social Worker Month and VMRC recognizes staff for their contributions to our consumers and agency. Salary increases, additional money toward medical benefits, and a better payroll system have all helped with staff morale.

Juanita Leach Lazar – took a course over summer. She put together a power point that Mary will bring to the group next May. Take minute video and PowerPoint. We have quite a few new vendors in training and quite a bit of follow up.

4.0 **RESOURCE DEVELOPMENT**

Brian Bennett provided copies of Current residential projects in development. A second handout was a follow up from the HCBS training. There is also a power point available on insideXchange. Brian provided a copy to anyone that wanted a copy.

5.0 **QUALITY ASSURANCE**

5.1 Alerts: Anthony provided copies of his Alert Report 12/1/16 – 3/13/17. He is working on a better format. Hopefully sooner than later. With regards to the timeframe of the report, There are 132 that are open, 63 were closed and 69 remain open. The violation of rights issues, there were 3, on page 3. There is not much information on the report (consumer receiving too much P&I funds), page 4 – 2/`9/17 – issue is a facility with a gate in the back yard. Vendor modified the gate, so it has a different locking mechanism. There is a question to whether the consumers living there can operate it. The liaison is going to look at this tomorrow. On page 5, there are two violations of rights (one 3/10/17 & 3/14/17 – both are the same issue) the vendor allegedly asked a consumer to relocate outside of the agreement.

Housing focus committee – RFPs for Healthy Way of Life and Life Skills Housing Models have been drafted and are scheduled for distribution and posting on VMRC's webpage, InsideXchange, and potentially Facebook.
