The training will be held via webinar, and will provide stakeholders with information and support while working to reimagine services and supports in alignment with the HCBS Final Rule.

HCBS Settings Final Rule | Strategies for Providing Services

This training will focus on the intent of the HCBS Final Rule, the importance of person-centered planning, and implementing practices that consider both in the way services are provided.

Examples of strategies for achieving alignment will be provided for each of the federal requirements. There will also be the opportunity to brainstorm and reflect on your current practices to see where some of these strategies may be applied to achieve alignment.
