## **DEPARTMENT OF DEVELOPMENTAL SERVICES 2022 MAY REVISION HIGHLIGHTS**

The Department of Developmental Services (Department) is responsible for administering the Lanterman Developmental Disabilities Services Act (Lanterman Act). The Lanterman Act provides for the coordination and provision of services and supports to enable people with intellectual and developmental disabilities to lead more independent, productive, and integrated lives. Additionally, the Early Start Program provides services to infants and toddlers at risk of having a developmental disability. The Department carries out its responsibilities through contracts with 21 community-based, non-profit corporations known as regional centers, as well as through state-operated homes and facilities.

The number of individuals served by regional centers (consumers) is expected to be 371,388 in the current year and increase to 400,485 in fiscal year (FY) 2022-23. In addition, 322 individuals are projected to be served in state-operated facilities as of July 1, 2022. The May Revision Estimate reflects a reduction of 15,043 individuals when compared to the Governor's Budget.

The May Revision Estimate continues to support the needs of consumers during the public health crisis and reflects the need for increased supports in specified service categories. The May Revision Estimate also proposes new policies to continue efforts to improve service access and to achieve better outcomes and consumer experiences.

### **2022 MAY REVISION SUMMARY**

The 2022 May Revision updates the Department's FY 2021-22 budget to include \$10.8 billion total funds (TF) (\$6.3 billion General Fund [GF]) and includes \$12.7 billion TF (\$7.6 billion GF) for FY 2022-23; a net increase of \$1.9 billion TF (\$1.4 billion GF) over the updated FY 2021-22 budget, or a 17.2 percent TF increase.

In addition to caseload and utilization updates, the proposed FY 2022-23 funding supports the following new and updated items:

- Promoting Workforce Stability (\$186.4 million TF, \$186.2 million GF): The Budget includes \$185.3 million one-time funding and funding for seven headquarters positions ongoing to support efforts to address current and emerging workforce challenges among workers who provide direct services and regional center consumer service coordinators.
- SB 3, Effective January 1, 2023, Consumer Price Index Adjustment (\$59.4 million TF, \$35.1 million GF): The Budget includes funding for the January 1, 2023 minimum wage increase from \$15.00 to \$15.50 for all employers.
- Service Access and Equity Grant Program (\$11.8 million TF, \$11.6 million GF): The Budget includes an additional \$11.0 million one-time funding and four headquarters positions to increase funding available in the Service Access and Equity Grant Program and support ongoing workload associated with monitoring existing and future grant applications and awards.

- Financial Management Services for Participants in the Self-Determination Program (\$7.2 million TF, \$4.4 million GF): The Budget includes funding to move payments for Financial Management Services for Self-Determination Program participants outside of their individual budgets.
- Early Start Eligibility (\$6.5 million GF): The Budget includes funding to support regional center operations and provide purchase of service resources to support revised statutory eligibility provisions for early intervention services, including: lowering the eligibility threshold for developmental delay from 33 percent to 25 percent; separating communication delays into two distinct categories (expressive and/or receptive language); and identifying Fetal Alcohol Syndrome as a risk factor for developmental delays.
- Disposition of Fairview Developmental Center (\$3.5 million GF): One-time funding for the Department to allocate to the City of Costa Mesa to facilitate disposition of the Fairview Developmental Center property.
- Half-Day Billing Elimination (\$2.8 million TF, \$1.9 million GF): The Budget includes funding to reflect the elimination of the half-day billing policy for service providers.
- Continuing emergency planning and preparedness investments made in FY 2021-22, the May Revision includes \$850,000 General Fund on an ongoing basis to continue the distribution of emergency go-bags and batteries and other foundational activities that protect the health and safety of individuals.

April 1, 2022 Finance Letters include:

- Division of Community Assistance and Resolutions (\$4.4 million TF, \$3.7 million GF): The Budget includes 20.0 positions and contracting costs for the interagency agreement with the Department of General Services to partner on improvements to the state hearings and appeals process.
- Research and Data Enhancements (\$2.5 million TF, \$2.0 million GF): The Budget includes 19.0 positions to enhance data collection, analysis, sharing and reporting as well as enable sufficient technical infrastructure support for new and continuing program initiatives that emphasize person-centered outcomes and equitable access and services within the developmental services system.
- Facility Clinical Software Replacement and Electronic Health Record Implementation (\$1.7 million TF, \$1.6 million GF): The Budget includes five positions and contracting costs to plan for the replacement of clinical software used at the state-operated residential facilities.
- Resources for e-Signature/e-Forms and Accounting Support (\$436,000 TF, \$409,000 GF): The Budget includes four positions and consulting resources for implementation and maintenance of an electronic forms (e-Forms) and signature (e-Signature) system.

**POS – Policy**

There is a net decrease of \$8.1 million TF (\$3.1 million GF) in policy related expenditures as compared to the Governor’s Budget. This is primarily driven by the following:

- SB 3, Minimum Wage Increase, Effective January 1, 2022: Decrease of \$5.3 million TF (\$3.1 million GF) based on updated expenditure data.
- Social Recreation and Camping Services: Decrease of \$2.9 million HCBS ARPA funding based on updated expenditure data.

## Staffing Expenditures

### BACKGROUND:

Staffing includes personal services and operating expenses for Core Staffing, Rent, Community Placement Plan, and mover Continuation Cost.

To address increased needs created by the pandemic and to mitigate an anticipated backlog in new referrals, regional center operations were not adjusted for the lower caseload.

### METHODOLOGY:

### REASON FOR CHANGE:

There is no change in FY 2021-22 from the Governor's Budget.

The change from FY 2021-22 to FY 2022-23 is due to changes in community caseload and increases in facility rent.

## Federal Compliance

### BACKGROUND:

There are both fiscal and program requirements placed on the regional centers that enable the State to receive federal funding. This includes ongoing tasks such as reviewing choice statements, handling complex notice of action issues related to the Home and Community-Based Services (HCBS) Waiver, completing annual HCBS Waiver certification/recertification forms, preparing for program audits, determining billable services, reconciling data, maintaining records in accordance with applicable federal requirements for accuracy and completeness, reviewing case records, participating in training on HCBS Waiver policies and procedures, resolving eligibility/compliance issues, etc. In addition, regional centers are required to complete ongoing tasks related to the Targeted Case Management (TCM) and Nursing Home Reform (NHR) programs such as complying with Medicaid State Plan requirements for case management activities and completing appropriate screenings for those admitted to the nursing facilities.

### METHODOLOGY:

	<u>FY 2021-22</u>	<u>FY 2022-23</u>
<ul style="list-style-type: none"> <li> <p><b>• HCBS Waiver:</b></p> <p>Operations costs for HCBS Waiver activities are based upon 6.5 percent of FY 1995-96 HCBS Waiver reimbursements of \$325,148,000. This amount is fixed and is not adjusted for growth.</p> </li> </ul>	\$21,135	\$21,135
<ul style="list-style-type: none"> <li> <p><b>• Compliance with HCBS Waiver Requirements:</b></p> <p>Provides funding for regional center compliance with the HCBS Waiver. Functions include maintaining average service coordinator-to-consumer caseload ratios at not more than 1:62; performing quarterly face-to-face monitoring of consumers residing in out-of-home living arrangements; providing clinical consultations, monitoring and reviewing consumers' health status; and developing and annually reviewing Waiver consumers' individual program plans and Client Developmental Evaluation Reports.</p> </li> </ul>	\$8,700	\$8,700
<ul style="list-style-type: none"> <li> <p><b>• Case Managers to Meet HCBS Waiver Requirements:</b></p> <p>In a letter dated April 21, 2006, the Centers for Medicare &amp; Medicaid Services (CMS) indicated that the State must "review and revise, as needed, its policies to assure that the case manager to waiver participant ratio of 1:62 is consistently met." This augmentation by the California Legislature is intended to assist in this requirement.</p> </li> </ul>	\$12,928	\$13,850

## Intermediate Care Facility – Developmentally Disabled Quality Assurance Fees Operations

### BACKGROUND:

To obtain federal financial participation (FFP) associated with the Intermediate Care Facilities-Developmentally Disabled (ICF-DD), regional centers incur administrative costs for billing on behalf of the ICF-DD.

### METHODOLOGY:

Billing costs are 1.5 percent of the purchase of services costs for Day Programs and Transportation. The Department estimates the total purchase of services costs to be \$109.8 million for Day Programs and Transportation, of which 1.5 percent equals \$1.6 million for regional center administration.

### REASON FOR CHANGE:

The change in both years is due to updated actuals.

### EXPENDITURES:

## Community Care Facilities

### BACKGROUND:

Community Care Facilities (CCF) are licensed by the Community Care Licensing Division of the Department of Social Services (DSS) to provide 24-hour non-medical residential care to children and adults with developmental disabilities. Regional centers contract with vendored CCFs to provide consumers personal services, supervision, and/or assistance essential for self-protection or sustaining the activities of daily living.

### METHODOLOGY:

Community Care Facilities expenditures are developed using the February 2022 State Claims Data file, with expenditures through November 30, 2021.

Supplemental Security Income/State Supplementary Program (SSI/SSP) payments are grants received from the federal Social Security Administration (the "SSI" portion), along with a supplemental payment from the state (the "SSP" portion). For individuals who receive SSI/SSP the Department funds only the portion of facility costs that are above the SSI/SSP level of payment (i.e., the "net" costs). Funds for the SSI/SSP grants are in the DSS budget.

The base amounts represent a combination of actual and estimated expenditures from the prior year. Utilization and growth amounts are calculated using historical expenditure trends as well as consideration of the impact of COVID-19 on service utilization (see Impacts Due to COVID-19 in Section G).

## Community Care Facilities

	<u>FY 2021-22</u>	<u>FY 2022-23</u>
<p><b>SSI/SSP Increases :</b> For consumers living in community care facilities, the Supplemental Security Income/State Supplementary Payment (SSI/SSP) helps to pay for room, board, and other personal expenses. The SSI/SSP amount, effective January 1, 2022, is estimated to be \$1,212 per month, which represents an increase of \$132 per month over the previous amount. The SSI/SSP amount, combined with purchase of service funding, makes up the overall amount paid to community care facility providers. An increase in the SSI/SSP amount results in a corresponding decrease in purchase of service funding, while maintaining the overall amount paid to providers.</p> <ul style="list-style-type: none"> <li>• <b>New, effective July 1, 2022 –</b> The Department proposes to maintain, rather than reduce, the purchase of service component of the overall amount paid to community care facility providers when the SSI/SSP amount increases.</li> </ul>	(\$16,487)	\$0

## Day Programs

### BACKGROUND:

Day programs are community-based programs for individuals served by a regional center. Types of services available through a day program include:

- Developing and maintaining self-help and self-care skills.
- Developing the ability to interact with others, making one's needs known and responding to instructions.
- Developing self-advocacy and employment skills.
- Developing community integration skills such as accessing community services.
- Behavior management to help improve behaviors.
- Developing social and recreational skills.

## Habilitation Work Activity Program

### BACKGROUND:

Work Activity Program (WAP) services through the regional centers include paid work, work adjustment and supportive habilitation services typically in a sheltered workshop setting. WAPs provide paid work in accordance with Federal and State Fair Labor Standards. Work adjustment services may include developing good work safety practices, money management skills, and appropriate work habits. Supportive habilitation services may include social skill and community resource training as long as the services are necessary to achieve vocational objectives.

### METHODOLOGY:

Work Activity Program expenditures are developed using the February 2022 State Claims Data file, with expenditures through November 30, 2021.

## In-Home Respite

### BACKGROUND:

In-Home Respite services are defined as intermittent or regularly scheduled temporary non-medical care and/or supervision provided in the person's home. In-Home Respite services are support services which typically include:

- Assisting the family members to enable a person with developmental disabilities to stay at home;
- Providing appropriate care and supervision to protect that person's safety in the absence of a family member(s);
- Relieving family members from the responsibility of providing care;
- Attending to basic self-help needs and other activities that would ordinarily be performed by the family member.

### METHODOLOGY:

In-Home Respite expenditures are developed using the February 2022 State Claims Data file, with expenditures through November 30, 2021.

The base amounts represent a combination of actual and estimated expenditures from the prior year. Utilization and growth amounts are calculated using historical expenditure trends as well as consideration of the impact of COVID-19 on service utilization (see Impacts Due to COVID-19 in Section G).

## Intermediate Care Facility – Developmentally Disabled Quality Assurance Fees Purchase of Services

### BACKGROUND:

To realize the federal financial participation (FFP) associated with the Intermediate Care Facility Developmentally Disabled (ICF-DD) State Plan Amendment, there are administrative costs for the ICF-DD and Quality Assurance Fees (QAF).

### METHODOLOGY:

Billing costs are 1.5 percent of the purchase of services costs for Day Programs and Transportation and regional center administrative fees for ICF-DD. QAF are set by the Department of Health Care Services (DHCS).

The Department estimates the total purchase of services costs to be \$109.8 million for Day Programs and Transportation. ICF-DD administration costs are 1.5 percent of the total or \$1.7 million and the QAF are \$7.2 million. Total administration and QAF are \$8.9 million.

### SECTION F: COMMUNITY PLACEMENT PLAN

Community Placement Plan .....	F-1
--------------------------------	-----

## Community Placement Plan

### BACKGROUND:

The purpose of Community Placement Plan (CPP) funding is to enhance the capacity of the community service delivery system and to reduce reliance on developmental centers, Institutions for Mental Disease (IMD) that are ineligible for federal financial participation (FFP), skilled nursing facilities (SNF), and out-of-state placements. In addition to CPP, the Community Resource Development Plan (CRDP) allows for development in the community to support the expansion of resources for those already residing in the community.

This estimate reflects Operations and Purchase of Service (POS) resources needed to:

- Facilitate transitions to the community from a developmental center, an IMD, a SNF, or out-of-state.
- Assess needs of the individuals, through comprehensive assessments.
- Establish resources in the community for individuals transitioning from another environment.
- Collaborate with the regional centers, regional projects and other team members in transitional activities.
- Stabilize current community living arrangements.

CPP funding provides resources for both Operations and POS as follows:

#### Operations

- **Positions:** Positions and costs for employees at the regional centers who focus on CPP and CRDP, to pursue resource development, complete assessments, lead the transition of consumers into community settings, provide quality assurance, and provide clinical expertise.
- **Operating Expenses:** Costs for operating expenses and equipment.

#### Purchase of Services

- **Start-Up:** Start-Up funds support the development of residential and non-residential services in the community for individuals.
- **Assessment:** Assessment funds support comprehensive assessments, which are required by statute, for individuals who are living in developmental centers and IMDs to plan for services when individuals move into the community.
- **Placement:** Placement funds support costs of consumers moving into least restrictive community settings from a more restrictive setting.

## Specialized Caseload Ratio

### BACKGROUND:

A 1:25 service coordinator-to-consumer caseload ratio is in place for consumers with complex needs, as defined in Welfare and Institutions Code (WIC), §4640.6(c)(4). Examples of consumers with complex needs may include individuals who reside or are at risk of residing in Institutions for Mental Diseases, Community Crisis Homes, state-operated acute crisis homes, out-of-state placements or have been admitted to a psychiatric hospital several times within the preceding six months. Due to the complexity and uniqueness of each consumer, intensive case management and service coordination is necessary for stabilization in the least restrictive setting.

The 1:25 ratio is to provide service coordinators to assist in identifying and/or stabilizing services to support individuals with developmental disabilities, for a limited time, who have the most complex needs. Once stabilized the individuals may then transfer back to a higher caseload ratio as appropriate.

### METHODOLOGY:

To achieve a 1:25 caseload ratio, in fiscal year (FY) 2021-22 the Department funds 54 services coordinators to provide case management to 1,354 consumers considered high-risk. In FY 2022-23 the Department funds 57 services coordinators to provide case management to 1,435 consumers considered high-risk.

<b>Total Annual Cost (Rounded)</b> <i>(Whole dollars)</i>	<b>\$4,200,000</b>	<b>\$4,400,000</b>

## Specialized Caseload Ratio

### REASON FOR CHANGE:

There is no change in FY 2021-22 from the Governor’s Budget.

The change from FY 2021-22 to FY 2022-23 is due to the year-over-year increase in high-risk consumers.

## Specialized Home Monitoring

### **BACKGROUND:**

Pursuant to Welfare and Institutions Code (WIC), §4684.70 and §4684.84(b) regional centers must perform monthly monitoring of individuals residing in Adult Residential Facilities for Persons with Special Healthcare Needs (ARFPSHN), Group Homes for Children with Special Health Care Needs (GHCSHN) and Enhanced Behavioral Supports Homes (EBSH). A local regional center licensed registered nurse and a qualified behavior modification professional must each visit, with or without prior notice, each consumer, in person, at least monthly in the ARFPHSN and EBSHs, or more frequently if specified in the consumer's individual program plan.

Similarly, WIC §4698(e) specifies that the local regional center and each consumer's regional center shall have joint responsibility for monitoring and evaluating the provision of services in Community Crisis Homes (CCHs). This proposal provides funds to incorporate monitoring resources into regional center operating budgets. Monitoring shall include at least monthly face-to-face onsite case management visits with each consumer by his or her regional center, and at least quarterly quality assurance visits by the vendoring regional center. In addition, on a semi-annual basis, the Department must monitor and ensure compliance by the regional centers with their monitoring responsibilities.

### **METHODOLOGY:**

Regional centers employ and utilize registered nurses to monitor the ARFPSHNs and GHCSHNs, and licensed behavior specialists to monitor EBSHs and CCHs. Each registered nurse and licensed behavioral specialist is able to complete required monitoring of homes at a nurse/specialist-to-home ratio of 1:4. In fiscal year (FY) 2021-22, the Department funds staff to monitor 94 ARFPSHNs, and 170 EBSHs and CCHs combined. In FY 2022-23, the Department funds staff to monitor 104 ARFPSHNs and GHCSHNs combined, and 186 EBSHs and CCHs combined.

## Trauma Informed Services for Foster Youth

### BACKGROUND:

Assembly Bill (AB) 2083 (Chapter 815, Statutes of 2018) requires that regional centers participate in the development of Memorandum(s) of Understanding (MOUs) in each county served, and participate on interagency leadership teams and committees in each county, to ensure services are provided in recognition of trauma that may have occurred in the lives of the individuals in foster care. Most of the state's 21 regional centers serve multiple counties. Funding provides for ongoing implementation of AB 2083 workload which includes multiple MOUs, participation on multiple interagency leadership teams and placement committees, data collection and analysis, resource development, identifying and coordinating available placement and service options, and providing expertise and guidance to regional center staff on service coordination for children and youths in foster care who have experienced severe trauma.

### METHODOLOGY:

The Department estimates regional centers need 15 senior/supervising coordinators statewide at an annual cost of \$1.6 million.

## START Training

### BACKGROUND:

The Systemic, Therapeutic, Assessment, Resources and Treatment (START) training model is a comprehensive approach to crisis prevention and intervention for people with developmental disabilities and co-occurring mental health conditions. This model provides wraparound services that support individuals at-risk for acute crisis or loss of residential placement, and individuals who are currently experiencing crisis. The START model has demonstrated positive outcomes in other states with published scientific papers reporting reductions in psychiatric hospitalizations and emergency room visits, improved mental health symptoms, reductions in challenging behavior, and maintaining residential placements in the community. The University of New Hampshire Center for START Services provides training and certification in the START model to community providers who make up the local START teams.

START services will help maintain individuals in their current residential arrangement and prevent admissions into more restrictive settings, such as Community Crisis Homes (CCHs), Institution for Mental Disease (IMDs), and out-of-state placements. START services provide 24-hour crisis services, and planning and training to families, direct support staff, and local partners (e.g., police, hospital staff, teachers) on person-centered, trauma-informed, and evidence-based support services for individuals with co-occurring developmental disabilities and mental health needs.

In California, 15 regional centers will have implemented the START model by the end of fiscal year (FY) 2021-22. First, second, and third year training costs cover all aspects of the START model training provided by the University of New Hampshire Center for START services to the local START team. This includes personnel costs, travel, printed materials, online training platform, data management, and technical support, as well as quarterly evaluations of the local START teams using collected data, and an annual independent, comprehensive evaluation of California's system of care.

### METHODOLOGY:

## Regional Center Emergency Coordinators

### BACKGROUND:

The fiscal year (FY) 2020-21 Budget Act included funding for 21 positions, one at each regional center, to coordinate emergency preparedness, response, and recovery activities. The Department requests this ongoing funding be increased to reflect a salary range equivalent to the State’s Senior Emergency Services Coordinator classification, better reflecting the level of responsibility and independence with which these regional center positions operate during emergency events.

During an emergency, the 21 regional center Emergency Response Coordinators are required to provide notifications and updates to those impacted, identify closures and loss of services, identify and address unmet needs, secure emergency supplies; and coordinate between the Department, other regional centers, service providers, and local agencies to maintain consumer safety and supports. Aside from the immediate emergency response, Emergency Response Coordinators also support ongoing recovery efforts, specifically assistance returning home, providing information on available resources such as FEMA assistance, temporary housing, replacement of medical equipment, and educating counties on regional center roles and developing emergency plans with counties and neighboring regional centers.

### METHODOLOGY:

The annual costs to fund 21 Senior Emergency Response Coordinators is \$2.5 million.

	<u>Annual Salary</u>

## Community Navigators

### BACKGROUND:

The Department contracts with Family Resource Centers to administer community navigator programs in each of the 21 regional center catchment areas. The model utilizes parents of children in the regional center system, community leaders, and self-advocates to provide information and guidance to consumers and their families who could benefit from added support to navigate connection to generic and regional center resources. Navigators share a community, language, ethnicity, and culture with the families they support.

### METHODOLOGY:

Fiscal year (FY) 2021-22 includes funding of \$500,000 for a one-time evaluation focused on improving the effectiveness of existing disparity projects and \$4.8 million for community navigator programs. Following FY 2021-22, \$5.3 million ongoing is provided for community navigator programs.

## Tribal Engagement for Early Start Services

### BACKGROUND:

To improve service access and awareness of Early Start Services for California Native Americans, the Department will engage tribal communities statewide with consultation and assistance from California Tribal Families Coalition (CTFC). In collaboration with DDS and regional center partners, CTFC will develop an initial statewide outreach plan to implement engagement and outreach strategies that are respectful, culturally competent, regular, and meaningful. The focus of the plan will be to conduct outreach and training, development of a Tribal Engagement Guide and culturally competent outreach materials. Outreach activities will include sharing Early Start information and collaborating with existing Tribal Head Start Programs and hosting listening sessions and informational trainings with tribal leadership and tribal families in coordination with regional centers and DDS.

### METHODOLOGY:

DDS will allocate funding to lead regional centers who will contract with CTFC and costs will include activities to conduct outreach and engagement, developing a Tribal Engagement Guide, and culturally competent outreach materials and hosting listening sessions and training sessions for tribal leadership and families.

## Enhanced Service Coordination

### BACKGROUND:

Enhanced Service Coordination will prioritize individuals or families who are from communities of color and/or non-English speaking consumers and have low purchase of service (POS) or no-POS, as they are more likely to need enhanced assistance in accessing services. Fiscal year 2021-22 established funding for Enhanced Service Coordinators with a 1 to 40 service coordinator to consumer ratio. With smaller caseloads, specially trained service coordinators will provide more extensive support and intensive case management to consumers and their families who currently have low or no POS. This Enhanced Service Coordination is intended to improve service delivery and access to services in underserved and diverse communities. The knowledge obtained through Enhanced Service Coordination will enable individuals and families to continue advocating and accessing needed services once transitioned back to a non-specialized service coordinator to consumer ratio.

### METHODOLOGY:

The estimate includes funding for 105 Enhanced Service Coordinators (ESC) to support 4,200 consumers. Additionally, to provide supervision for these positions, the estimate includes funding for 10.5 supervisors at a ratio of 1 supervisor for every 10 ESCs.

The annual costs to fund 105 Enhanced Service Coordinators is \$12.8 million.

## Direct Service Professional Workforce Training and Development

### BACKGROUND:

Direct service professionals (DSPs) are critical to the provision of services and supports to individuals with intellectual and developmental disabilities (IDD). To stabilize the workforce, the funding is to establish a training and certification program for direct service professionals tied to wage differentials, providing advancement opportunities for the workforce.

The DSP Workforce Training and Development program’s purchase of service component will include expenditures for progressively higher wages for DSPs who complete additional training and certification. The program aims to enhance the services provided and foster a more sustainable and professional workforce. The DSP workforce will consist of three tiers that will have wage differentials with completion of each tier’s training and certification. This will promote improved consumer access to a more skilled workforce, which will foster improved consumer outcomes while having a positive effect on DSP turnover.

The program will provide opportunities for advanced training for DSPs through a standardized training curriculum. Partnering with employers (service providers) as well as individual employees in advancing their professional development will further enhance the skillset of DSPs supporting California’s developmental services system.

### METHODOLOGY:

The estimate for fiscal year (FY) 2021-22 reflects infrastructure costs to secure/develop the program with out-year costs estimated to support implementation of the tiered wages.

## Implicit Bias Training

### BACKGROUND:

Studies have found that African-American children have not been proportionately diagnosed with Autism Spectrum Disorders (ASD) or have received an ASD diagnosis at an older age as compared to children who are white. Delayed diagnosis and access to services can create life-long impacts, and the Department expects that focusing on regional center personnel and contractors involved in eligibility determinations will have the greatest influence in improving equity in access to regional center services. Implicit bias training can help individuals become aware of their own biases which may influence decisions and actions.

### METHODOLOGY:

Assumes annual implicit bias training for regional center staff and specified contractors.

## Emergency Preparedness

### BACKGROUND:

The 2021 Budget Act provided \$4.3 million GF to enhance preparation efforts and readiness to serve consumers facing disasters and other emergency situations. The funding supports updates to and distribution of Feeling Safe, Being Safe emergency preparedness informational materials; provides training and education to regional center emergency coordinators on how to prepare and respond during emergency situations; provides consumers living independently or with limited supports in high-risk fire and electrical shutoff zones with emergency go-kits; and enables the purchase of back-up batteries for individuals who are dependent on life-sustaining equipment.

### METHODOLOGY:

Funding of \$4.3 million in the FY 2021-22 Budget included \$200,000 to support ongoing training for regional center staff, service providers, and community engagement. An additional \$850,000 annually provides a stable ongoing baseline budget for emergency activities including regular updates to and distribution of educational materials and replacement of existing or purchase of new go-bags as caseload grows, items expire, and supplies need to be replaced.

### REASON FOR CHANGE:

There is no change in FY 2021-22, from the Governor’s Budget.

The change from FY 2021-22 to FY 2022-23 reflects a reduction due to one-time costs in 2021-22.

## Resources to Support Individuals Who Are Deaf

### BACKGROUND:

Individuals who are deaf and hard of hearing represent a highly diverse population with a wide range of communication preferences and cultural and ethnic backgrounds that shape interactions with their environment. Building trusted relationships within the deaf community requires specialized experience. The Department recognizes the need to improve service access for individuals who are deaf and have intellectual and developmental disabilities (Deaf+). The 2021-22 Budget funded a Deaf Service Specialist at the Department and at each regional center to support the expansion of deaf service resources, develop and implement communications assessments, provide training and expertise to regional center staff, and collaborate with other regional centers on statewide efforts.

The Governor’s proposed Budget includes one-time funding to conduct a communications assessment for consumers who are deaf or hard of hearing. Due to the uniqueness of deaf culture and their communication needs, funding will provide regional centers the ability to contract for communications assessments that will be used in developing Individual Program Plans. The Department will also contract with an individual or entity with the experience and qualifications to advise the Department in the most appropriate assessment tools, qualifications of assessors, and/or the necessary services or service adaptations to meet the needs of individuals who are Deaf+.

### METHODOLOGY:

The Department estimates approximately 14,300 consumers are deaf or hard of hearing and would be eligible for a communications assessment.

The annual costs to fund 21 Deaf Service Specialists.

## Employment Grant

### **BACKGROUND:**

With the passage of AB 136, Welfare and Institutions Code (WIC) was amended to include 4870.1 and provides funding to establish a program to increase pathways to competitive integrated employment (CIE). WIC 4870.1 requires DDS, in collaboration with the Department of Rehabilitation and stakeholders, to establish contracts or grant opportunities for entities to develop and implement innovative and replicable strategies and practices to increase paid work experiences and employment opportunities for regional center consumers.

DDS formed an Employment Workgroup comprised of a range of stakeholders for consultation on the structure and priorities of the grant program. The workgroup first convened in December 2021, after taking longer than anticipated to secure workgroup members with the desired expertise and experience. Through regular meetings, the workgroup has identified priority areas for the grant guidelines that DDS will issue to solicit proposals, including innovative pathways to employment; employment supports; business focused practices; engaging families, adults, and youth in CIE; and whole person approach to achieving CIE. Project types for the grants may include education and training; employment preparation services and supports; new and alternative services models; and business focused practices. DDS anticipates announcing grant awards in August 2022.

DDS continues to work towards the recovery and expansion of CIE and the Paid Internship Program (PIP) and engaging the workgroup in its efforts. Future workgroup meetings will involve presentations by employers who have demonstrated commitment and success employing individuals with intellectual and developmental disabilities to support learning from their experiences and established partnerships.

### **METHODOLOGY:**

One-time funding, with three-year expenditure authority until FY 2023-24, will expand current efforts to achieve increased competitive integrated employment opportunities, to include targeted technical assistance, local collaboration with community colleges, small business associations and chambers of commerce and other targeted pathways leading to meeting established targets.

### **REASON FOR CHANGE:**

There is no change in FY 2021-22 from the Governor's Budget.

The change from FY 2021-22 to FY 2022-23 is due to one-time funding in FY 2021-22.

## Performance Incentives

### BACKGROUND:

The Department is working with stakeholders and regional centers to establish a performance improvement program with fiscal incentives for regional center operations to meet specified benchmarks and improvement measures.

Priority areas for performance indicators and benchmarks associated with out-year funding could include, but are not limited to, the following: equity in service access and purchase of services, consumer employment and associated metrics, community integration, person-centered planning, compliance with federal home and community-based standards, consumer and family experience and satisfaction, and innovation in service availability and delivery.

### METHODOLOGY:

The estimated costs in fiscal year (FY) 2022-23 will support the implementation of the new performance improvement program that will prioritize the reduction of Regional Center caseload ratios. Funding will allow for hiring of additional service coordinators statewide and will include fiscal incentives for regional centers to meet performance measures. Funding will also support infrastructure needs to implement the performance improvement plan, including, but not limited to, additional staffing and new data collection systems/tools.

### REASON FOR CHANGE:

There is no change in FY 2021-22 from the Governor’s Budget.

The change from FY 2021-22 to FY 2022-23 is due to the implementation of the performance improvement plan.

## Language Access and Cultural Competency

### BACKGROUND:

COVID-19 highlighted the continued need to assist consumers and families of children served by regional centers who are from underserved communities to navigate systems and improve service access and equity and meet basic needs. The Budget includes funding for language access and cultural competency orientations and translations for regional center consumers and their families. This additional investment may be used for identification of vital documents for translation, regular and periodic language needs assessments to determine threshold languages, coordination and streamlining of interpretation and translation services, and implementation of quality control measures to ensure the availability, accuracy, readability, and cultural appropriateness of translation.

### METHODOLOGY:

Funding for language access and cultural competency orientations and translations.

## Health and Safety Waiver Assistance

### BACKGROUND:

Pursuant to various sections of the Welfare and Institutions (W&I) Code, service provider rates may not be increased unless the regional center demonstrates that an increase is necessary to protect a consumer’s health or safety and the Department has granted written authorization (commonly referred to as a health and safety waiver).

Consistent with W&I Code Section 4620.4(f), the Budget includes \$4.4 million to facilitate applications for health and safety waivers for non-English speaking individuals. The activities supported by these funds must include specialized outreach and case management services toward identifying which individuals might have an unaddressed need for a health and safety waiver and assisting with guiding individuals through the application process to meet those needs. Regional centers must track the number of individuals served through this effort and provide this information to the department on at least an annual basis.

### METHODOLOGY:

The funding is allocated based on the number of consumers who do not speak English within each regional center.

## Enrolling Vendors as Medicaid Providers

### BACKGROUND:

Payment Error Rate Measurement (PERM) is a federally contracted audit process that measures improper payments in Medicaid and other federal programs. During the fiscal year (FY) 2016-17 PERM review, the Centers for Medicare and Medicaid Services cited claims processed through the Department as payment errors because neither the Department, regional centers, nor vendors were enrolled as Medicaid providers. To date, the Department and regional centers have successfully enrolled as Medicaid providers. The Department is actively working on a process for vendors that will meet Medicaid enrollment requirements.

The proposed funding, targeted for provider screening activities, such as site visits and background checks/fingerprinting for certain vendor types, addresses a portion of the federal requirements applicable to vendors.

### METHODOLOGY:

The cost for regional centers is estimated to be \$550,000 for the first year and \$400,000 annually thereafter.

### REASON FOR CHANGE:

There is no change from Governor’s Budget.

## Reduced Caseload Ratio for Children through Age Five

### BACKGROUND:

Improved service coordination and support to families will address the challenges families face in navigating multiple public systems that may limit the benefits and outcomes of the Early Start program. Reduced caseload ratios for children from birth through age five will enhance service coordination such as regional center participation in Individual Education Plan meetings, access to generic resources, increased family visits, and strengthened federal compliance with timely service delivery and transitions.

This proposal reduces the current caseload ratio to 1:40 for service coordinators supporting Early Start services, provisionally eligible children through age four, and Lanterman eligible children through age five.

### METHODOLOGY:

To achieve the 1:40 caseload ratio for approximately 91,400 children, the estimate includes funding for approximately 577 service coordinators and 58 supervisors with a ratio of one supervisor for every 10 service coordinators.

The average annual costs to fund the estimated service coordinators is \$61.6 million total funds.

## Early Start – Part C to B Transitions

### BACKGROUND:

The Department proposes to transform the early childhood experience of young children and their families who receive early intervention services or are at risk for or have an intellectual/developmental disability. These strategies and initiatives support recommendations in the Senate Bill 75 Part C to B for CA Kids Workgroup Recommendations report on improving transitions from Early Start to Special Education Services (<https://www.partctobforcakids.org/#h.2h9izlqw9iqc>).

This proposal establishes Individuals with Disabilities Education Act (IDEA) Specialists at each regional center to train and support service coordinators guiding families through the transition from Part C (Early Start) to Part B (special education). Enhanced service coordination informed by the IDEA Specialist will increase families’ awareness of their rights as they prepare for their child’s education and support needs. IDEA Specialists will primarily provide administrative guidance and expertise on IDEA through technical support to regional centers and local education agencies providing infant and toddler services.

Further, the Department proposes supports to improve inclusion and accessibility of preschool programs. This proposal will have community-wide impact by increasing the knowledge and abilities of early childhood service providers to meet the needs of children with disabilities and to model inclusion.

### METHODOLOGY:

Preschool Support: Estimated cost: \$10 million General Fund (GF).

The annual costs to fund 21 IDEA Specialists is \$3.2 million.

## Service Access and Equity Grant Program

### BACKGROUND:

In 2016, Chapter 3, Statutes of 2016 (ABX2 1) allocated permanent funding of \$11 million General Fund (GF) to assist regional centers in the implementation of strategies to reduce disparities. The Department is requesting an additional \$11 million GF in one-time resources to increase award funding available through the current grant program. The Department has funded 398 grant projects focused on improving equity and reducing disparities. Applications for grant funding have increased steadily each grant year. In fiscal year (FY) 2021-22, the Department received \$44.2 million in funding requests, growing by approximately 50 percent over the previous year's requests. With 120 proposals received, the applicant pool remains diverse ranging from small parent-led grassroots organizations to well established academic institutions. This grant program reaffirms the Department's commitment to addressing the challenges consumers and families face in accessing services and using existing resources to make measurable progress in reducing disparities in Purchase of Services authorizations, utilization, and expenditures.

### METHODOLOGY:

Funding for grant projects.

### REASON FOR CHANGE:

This is a new policy for one-time funding in FY 2022-23. Grant funding available in FY 2022-23 will total \$22 million.

## Promoting Workforce Stability

### BACKGROUND:

To address current and emerging workforce challenges, the Department requests \$185.3 million General Fund (GF) in Fiscal Year (FY) 2022-23 to support a multi-pronged workforce development strategy. The strategy is designed to create career pathways for workers who provide direct services and consumer service coordinators (CSCs), and to explore technology-based supports to increase consumer independence. Specifically, this proposal includes: 1) Training Stipends for Workers who Provide Direct Services; 2) Internships for Workers who Provide Direct Services; 3) a CSC Tuition Reimbursement Program; and 4) an Initiative to Pilot Remote Supports using Technology Solutions.

### METHODOLOGY:

- Training Stipends for Workers who Provide Direct Services: Provide up to two \$500 training stipends/\$150 for taxes and administrative fees for 120,000 direct services professionals who complete specified training and development courses. (\$127.8 million GF)
- Internships for Workers who Provide Direct Services: Provide a \$500 retention stipend after six months of continuous employment and another \$500 stipend after one year of continuous employment. (\$22.5 million GF)
- CSC Tuition Reimbursement Program: Assumes 1,000 CSCs will participate in the tuition reimbursement program at \$10,000 annually for three years. (\$30 million GF)
- Initiative to Pilot Remote Supports using Technology Solutions: (\$5 million GF)

### REASON FOR CHANGE:

This is one-time funding for FY 2022-23.

## Enhanced Community Integration for Children and Adolescents

### BACKGROUND:

Children with intellectual and developmental disabilities (IDD) are frequently left out from participation in community programs, but both the child with IDD and children without IDD greatly benefit from opportunities to develop friendships. This proposal would support community social recreational connections for children through a multi-year grant program. The grant program will be for regional centers to work with community-based organizations and local park and recreation departments to leverage existing resources and develop integrated and collaborative social recreational activities.

### METHODOLOGY:

The Department will determine the funding for regional centers.

### REASON FOR CHANGE:

Funding related to this policy was previously included in the Department headquarters budget. It has been shifted to the operations budget for support of regional centers.

### BACKGROUND:

	<u>FY 2021-22</u>	<u>FY 2022-23</u>
<b>Best Buddies:</b>	\$2,000	\$2,000
<p>The Budget Act of 2019 includes ongoing funding of \$2.0 million General Fund (GF) provided to Best Buddies International. The funding will support Best Buddies' delivery of peer-to-peer mentoring and supported employment services throughout the state.</p>		
<b>Competitive, Integrated Employment Incentives/Paid Internship Program:</b>	\$29,000	\$29,000

To encourage competitive, integrated employment (CIE) opportunities for individuals with developmental disabilities, Welfare and Institutions Code (WIC) §4870 authorizes 1) paid internship opportunities with internship placement incentives to providers, and 2) incentive payments, paid at specified milestones, for providers who place and support consumers to maintain competitive, integrated employment.

In July 2021, WIC §4870 was amended to include the following provider incentive payments for internship placement:

1. A payment of seven hundred fifty dollars (\$750) shall be made to the service provider who, on or after July 1, 2021, places an individual in a paid internship opportunity, and the individual remains in the paid internship after 30 consecutive days.
2. An additional payment of one thousand dollars (\$1,000) shall be made to the regional center provider for an individual described above who remains in the paid internship for 60 consecutive days.

Additionally, WIC §4870 was amended to state, effective July 1, 2021, until June 30, 2025, the competitive integrated employment incentive payments for each milestone shall be as follows:

1. A payment of two thousand dollars (\$2,000) if the individual is still engaged in competitive employment after 30 consecutive days, as described in Section 4851(o) and Section 4868(d).

<b>Compliance with Home and Community-Based Services (HCBS) POS:</b>	\$15,000	\$15,000
<p>In January 2014, the Center for Medicare &amp; Medicaid Services (CMS) published final regulations defining what constitutes a home and community-based setting for Medicaid reimbursement purposes under §1915(c) Home and Community-Based (HCBS) Waivers, and §1915(i) HCBS State Plan programs. States were allowed up to a five-year transition period to make any modifications necessary to comply with the regulations. Subsequently, CMS requires compliance by March 17, 2023. To operate in full compliance with the CMS final regulations, HCBS settings must be integrated in and support full access to the greater community for individuals receiving Medicaid HCBS. To assist with compliance, funding is available for providers to make modifications to the way services are provided.</p>

## Electronic Visit Verification Penalty

### BACKGROUND:

Electronic Visit Verification (EVV) is a telephone and computer-based system that electronically verifies in-home service visits. EVV systems must verify the type of service performed, the individual receiving the service, date of the service, location of service delivery, the individual providing the service, and the time the service begins and ends. Pursuant to subsection I of §1903 of the Social Security Act (42 U.S.C. 1396b), all states must implement EVV for Medicaid-funded Personal Care Services by January 1, 2020 and Home Health Care Services by January 1, 2023. The state is subject to incremental Federal Medical Assistance Percentage reductions of up to 1 percent unless the state has both made a “good faith effort” to comply and has encountered “unavoidable delays.” California was granted a one-year extension to implement EVV for Medicaid-funded Personal Care Services from January 1, 2020 to December 31, 2020 which avoided a penalty in fiscal year (FY) 2019-20.

The Department completed its Operational Readiness Review with Centers for Medicare & Medicaid Services in December 21, 2021 and is pending CMS approval of its Personal Care Services solution.

Funding for backfilling the EVV penalty is 100 percent General Fund (GF).

### METHODOLOGY:

The penalty for non-compliance is estimated to be \$10.2 million in FY 2021-22, based on a 0.5 percent penalty of federally eligible expenditures for affected personal care services, beginning January 1, 2021, thru December 31, 2021, and a 0.75 percent penalty beginning January 1, 2022. The estimated fiscal impact reflects a backfill of GF to account for the reduction in federal funding.

There is no change in both fiscal years.

## Increased Costs for COVID-19

### BACKGROUND:

On March 4, 2020, Governor Gavin Newsom declared a State of Emergency for California in response to the global COVID-19 pandemic. As a result of COVID-19, the Department has experienced increased costs in supporting regional center consumers. These costs include providing additional support for consumers in their homes as well as the development of “surge sites” to serve consumers diagnosed with, exposed to, or at high risk due to COVID-19.

The Governor’s Budget supports the projected increased costs to meet the additional needs of consumers during the public health crisis. These include short-term impacts, as well as long-term challenges that will continue into fiscal year (FY) 2022-23. The Department’s budget recognizes the need for additional resources in residential settings, including the family home, as well as the impacts of decreased access to other community services as a result of the COVID-19 pandemic.

All of the estimated expenditures due to COVID-19 are incorporated into the Purchase of Services budget categories.

### METHODOLOGY:

The impact due to COVID-19 was calculated using the February 2022 State Claims Data file, with expenditures through November 30, 2021. Expenditure trends through November 2021 were compared to trends prior to the Covid-19 pandemic. The results of this comparison and actual data informed the estimated impact of COVID-19 on expenditures. While it is assumed that expenditures in some categories will return to historical utilization and growth patterns in FY 2021-22, longer-term impacts of COVID-19 are anticipated in Community Care Facilities, Transportation, Support Services, In-Home Respite, Out-of-Home Respite, and Miscellaneous services.

	<b>FY 2021-22</b>	<b>FY 2022-23</b>
Community Care Facilities	\$179,388	\$82,533
Day Program Services	\$5,084	\$0

Medical Facilities	\$0	\$0
<b>TOTAL PURCHASE OF SERVICES</b>	<b>\$279,577</b>	<b>\$183,907</b>

## Increased Costs for COVID-19

### REASON FOR CHANGE:

The change in FY 2021-22 from the Governor’s Budget reflects a decrease due to a delay in recovery related to COVID-19.

The change from FY 2021-22 to FY 2022-23 assumes continued but less impact as a result of COVID-19, and caseload and utilization will return to regular trends.

### EXPENDITURES:

The COVID-19 related costs are included in the individual budget categories, as listed above for informational purposes.

FY 2021-22	<u>Governor’s Budget</u>	<u>FY 2021-22</u>	<u>Difference</u>

## Health Facility Rate Increase

### BACKGROUND:

On March 4, 2020, Governor Gavin Newsom declared a State of Emergency for California as a result of the global COVID-19 pandemic. The federal government declared a national public health emergency (PHE) on January 31, 2020. In response, the Department of Health Care Services (DHCS) implemented a temporary 10-percent per diem rate increase for Intermediate Care Facilities -Developmentally Disabled (ICF-DD) through the duration of the state of emergency. The temporary PHE increase amount was based on facilities' total 2019-20 reimbursement and continues at the same level until the end of the PHE. DHCS received federal approval of State Plan Amendment (SPA) 20-0024, effective March 1, 2020. This rate increase applies for those facilities vendored through regional centers.

DHCS assumes the PHE will end July 15, 2022. DHCS proposes that after the end of the PHE, ICF-DD rates would be no lower than they are on the last day of the PHE inclusive of the 10% rate increase.

### METHODOLOGY:

The estimate for the 10-percent rate increase was calculated using the February 2022 State Claims Data file, with expenditures through November 30, 2021.

### REASON FOR CHANGE:

There is no change from Governor's Budget in FY 2021-22.

The change from FY 2021-22 to FY 2022-23 is due to including the rate increase on a permanent basis.

## Senate Bill 3, Minimum Wage Increase, Effective January 1, 2022

### BACKGROUND:

Senate Bill 3 (Chapter 4, Statutes of 2016) requires the minimum wage to increase from \$14.00 to \$15.00 per hour for employers with 26 or more employees, and from \$13.00 to \$14.00 per hour for employers with 25 employees or less on January 1, 2022. The last minimum wage increase from \$14.00 to \$15.00 per hour applies to employers with 25 employees or less and will occur on January 1, 2023.

### METHODOLOGY:

Costs are estimated using Purchase of Service expenditures that are based on previous actual rate increases to service providers.

	<u>FY 2021-22</u>	<u>FY 2022-23</u>
Community Care Facilities	\$33,046	\$71,226

Miscellaneous Services	\$1,116	\$2,572
<b>TOTAL EXPENDITURES</b>	<b>\$101,228</b>	<b>\$228,357</b>

### REASON FOR CHANGE:

The change in FY 2021-22 from the Governor's Budget, is due to updated actual expenditures.

The change from fiscal year FY 2021-22 to FY 2022-23 is due to a full year cost of the \$1.0 minimum wage increase.

## Youth Returning from Out-of-State Foster Care

### BACKGROUND:

Historically, when youth with complex behavioral, medical, and mental health needs in the foster care system cannot be served by in-state placement, counties may place youth in out-of-state facilities. The Department of Social Services conducted a reassessment of these facilities and found violations of California licensure standards resulting in the decertification of facilities. Approximately 10 youth in the decertified out-of-state facilities were anticipated to be eligible for Lanterman Act services and require therapeutic residential environments to support complex developmental and behavioral needs.

### METHODOLOGY:

The expenditures were developed based on five youth receiving supports in Enhanced Behavioral Support Homes.

The Budget includes \$1.8 million in fiscal year (FY) 2021-22 and FY 2022-23 for the Department to support youth in their transition back to California.

### REASON FOR CHANGE:

There is no change to both years.

### EXPENDITURES:

## Bilingual Differentials for Direct Service Professionals

### BACKGROUND:

For consumers receiving services, the effectiveness of those services, may be substantially compromised by language barriers. Communication between consumers and the staff who support them is instrumental in establishing trusting relationships and implementing interventions and strategies to further consumers' goals and/or diffuse crisis situations.

The Department estimates approximately 90,000 consumers speak a primary language other than English. A pay differential for bilingual direct service professionals who are bilingual, including those fluent in American Sign Language, increases the availability of staff who can support consumers when English is not their primary language, leading to improved choice, access to services, and greater independence for consumers.

### METHODOLOGY:

The estimate assumes costs to establish a verification process for bilingual competency and the cost of a pay differential for bilingual direct service professionals.

### REASON FOR CHANGE:

There is no change in Fiscal Year (FY) 2021-22 from the Governor's Budget.

The change from FY 2021-22 to FY 2022-23 is due to the estimated timing of establishing the verification process late in fiscal year FY 2021-22, with an increase in the number of staff receiving the pay differential in FY 2022-23.

## Social Recreation and Camping Services

### BACKGROUND:

Effective July 1, 2009, statute was enacted that suspended regional centers' authority to purchase social recreation services, camping services, educational services for children aged three to 17, and nonmedical therapies. Welfare and Institutions Code 4648.5 was amended, ending this suspension effective June 30, 2021.

### METHODOLOGY:

Funding is based on estimated costs to purchase services based on caseload growth. This estimate assumes an 18-month ramp up period.

### REASON FOR CHANGE:

The change in FY 2021-22, from the Governor's Budget, is due to updated expenditures.

The change in FY 2021-22 to FY 2022-23 is due to ramp up during the budget year.

## Senate Bill 3, Minimum Wage Increase, Effective January 1, 2023

### BACKGROUND:

Senate Bill 3 (Chapter 4, Statutes of 2016) requires the minimum wage to increase from \$14.00 to \$15.00 per hour for employers with 25 employees or less on January 1, 2023. This is the last increase to bring the State minimum wage up to \$15.00 per hour.

### METHODOLOGY:

Costs are estimated using Purchase of Service expenditures that are based on previous actual rate increases to service providers.

## Senate Bill 3, Effective January 1, 2023, Consumer Price Index Adjustment

### BACKGROUND:

Senate Bill 3 (Chapter 4, Statutes of 2016) requires that, upon implementation of minimum wage increases to \$15 per hour for all employers, the minimum wage will be adjusted annually and calculated based on the United States Consumer Price Index. The minimum wage is expected to increase effective January 1, 2023, for all employers by an additional \$0.50 per hour, bringing the minimum wage for all employers to \$15.50 per hour.

### METHODOLOGY:

Costs are estimated using Purchase of Service expenditures that are based on previous actual rate increases to service providers.

## Coordinated Family Support Services

### BACKGROUND:

Adults living outside the family home have more coordinated supports than individuals living with their family. Department data shows a significantly higher percentage of adults who identify as non-white (75 percent) live with their family as compared to adults who are white (52 percent). To improve service equity for adults who live with their family, and improve individual supports at home, this proposal would pilot a new service for families to assist in coordinating multiple services.

### METHODOLOGY:

The estimate assumes costs for the supported services to consumers who live with their families.

### REASON FOR CHANGE:

There is no change from the Governor’s Budget.

## Work Activity Programs: New Service Model

### BACKGROUND:

Existing Work Activity Programs (WAP) largely support sub-minimum wage employment in segregated settings. Funding would support a three-year pilot focused on career readiness for individuals exiting WAP or secondary education to explore inclusive options such as paid internships, competitive integrated employment and college to career programs.

The Department has seen a steady decline in consumer participation in WAP from approximately 6,100 individuals in FY 2018-19 to approximately 3,800 individuals in 2020-21. Senate Bill 639 (Chapter 339, Statutes of 2021) also requires an implementation plan to phase out the use of subminimum wages. Given the federal Home and Community-Based Services (HCBS) Final Rule compliance date of March 2023, the service model's future is evolving.

The pilot program will be developed in consultation with stakeholders and shall provide person centered and time limited services focused on preparing individuals for career pathways. Service providers participating in the pilot program will also report on defined outcomes measures determined by the Department.

### METHODOLOGY:

Funding for the pilot program is based on an assumed caseload of approximately 1,400 individuals.

### REASON FOR CHANGE:

There is no change from the Governor's Budget.

# Financial Management Services for Self-Determination Program Participants

## **BACKGROUND:**

The Self-Determination Program (SDP) provides individuals served by regional centers and their families with more flexibility and choice in the services and supports they receive. Participants in the program are provided resources necessary to implement their individual program plans (IPPs) through the development of individual budgets, which are based on participants' total regional center purchase of service expenditures from the most recent 12 months. Payments for services in the traditional system are inclusive of administrative overhead. Management of a participant's SDP individual budget and payment of expenses is conducted by a Financial Management Service (FMS) provider. Current law prohibits increasing the individual budget for the costs of paying the FMS.

Based upon data collected from those who chose not to pursue SDP, some individuals expressed concerns that the amount of funds available in the participant's individual budget would not be adequate to meet their needs. Paying for the FMS from individual budgets exacerbates the concern. The SDP Ombudsperson, upon hearing concerns from self-advocates and families, made recommendations to address this issue.

For some SDP participants, FMS fees can take up a significant portion of an individual budget. Most participants with small individual budgets are from underrepresented/underserved communities. The Department proposes to remove the statutory requirement that FMS fees be paid from the SDP individual budget. Regional centers will pay the FMS costs outside of the participants individuals budget, easing access to SDP.

## **METHODOLOGY:**

4,000 estimated SDP participants in FY 2022-23. Each participant is estimated to incur FMS fees averaging \$1,800 per year for a total of \$7.2 million.

## **REASON FOR CHANGE:**

This is a new policy.

## Half-Day Billing Elimination

### BACKGROUND:

Pursuant to Welfare and Institutions Code section 4690.6, activity centers, adult development centers, behavior management programs, and other look-alike day programs that charge a daily rate are required to bill regional centers for services provided to consumers in terms of half days of service (i.e., attendance of less than 65 percent of the program day) and full days of service (i.e., attendance of at least 65 percent of the program day). This statute directs each vendor to bill at one-half of its existing rate for any consumer who attended the program for less than 65 percent of the program day. The Department proposes to eliminate this requirement based on lessons learned during the COVID-19 Pandemic and through provision of alternative services. This policy has been in place through Department directive authority during the COVID-19 Pandemic.

### METHODOLOGY:

The Department estimated fiscal year 2022-23 expenditures for the impacted service codes.

## Forensic Diversion

### BACKGROUND:

The Enacted Budget includes funding to support the forensic diversion program for individuals with Intellectual and Developmental Disabilities (IDD) who have been charged with a felony and are active in the criminal justice system. The program provides outreach and services for individuals and provides an opportunity to remain in a community setting as opposed to a locked, highly restrictive setting when an individual, has been determined by the court to not pose a risk of danger to public safety.

The Forensic Specialists provide subject matter expertise on the criminal justice/court system and work on behalf of multiple regional centers. The regional center forensic specialists work with all parties, including the Department legal and regional project staff to find the appropriate community living arrangement. The duties also include working to develop necessary community resources and building collaborative relationships working with the courts, district attorneys and public defenders to educate and inform them on the legal requirements for alternatives.

Funding also supports intensive wraparound services provided by trained clinicians to individuals participating in the diversion program.

### METHODOLOGY:

The funding supports 5 Forensic Specialists, each serving multiple regional centers, and \$3.2 million for wraparound services.

## Enhanced Federal Funding

### BACKGROUND:

On March 18, 2020, the President signed the Families First Coronavirus Response Act (FFCRA) into law. The FFCRA provides a temporary 6.2 percentage point increase to California’s Federal Medical Assistance Percentage (FMAP) under section 1905(b) of the Social Security Act, effective January 1, 2020. The increase in FMAP applies to costs associated with the Home and Community-Based Services and Self-Determination Program Waivers, 1915(i) State Plan Amendment (SPA), Targeted Case Management, the Intermediate Care Facility-Developmentally Disabled SPA, and Early Periodic Screening Diagnosis and Treatment.

The increase in federal reimbursements is assumed to continue through September 30, 2022.

### METHODOLOGY:

The estimated fiscal year (FY) 2021-22 and FY 2022-23 enhanced FMAP is based on the additional 6.2 percent federal funds participation for eligible costs for 15 months. The increased federal funds will result in corresponding General Fund savings.

Purchase of Services	\$396,504	\$115,099
<b>TOTAL</b>	<b>\$427,838</b>	<b>\$124,518</b>

### REASON FOR CHANGE:

The change in FY 2021-22 from the Governor’s Budget reflects updated expenditures eligible for reimbursement.

The change from FY 2021-22 to FY 2022-23 reflects revised assumptions that the enhanced FMAP is expected to extend through September 30, 2022.

## Self-Determination Ongoing Implementation

### BACKGROUND:

The Self-Determination Program (SDP) provides individuals served by regional centers and their families with more flexibility and choice in the services and supports they receive. The Center for Medicare and Medicaid Services approved the state's request to renew federal funding for a five-year period effective July 1, 2021. As of July 2021, SDP is available to all consumers. To support the expansion and implementation of SDP, the estimate includes funding for:

- Enhanced transition support services for individuals and their families to assist with the transition into the SDP.
- Implementation of statewide orientation and training materials.
- Participant choice specialists at regional centers support individuals with timely transition to SDP participation as well as support other regional center staff.

### METHODOLOGY:

The estimate includes funding on a three-year limited-term basis in the operations budget for participant choice specialists at regional centers and ongoing funding to contract with entities that will help provide orientation, training, and plain language informational materials.

The estimate also includes ongoing funding for enhanced transition support services for approximately 25 percent of individuals enrolling into SDP.

## Lanterman Act Provisional Eligibility Ages 3 and 4

### BACKGROUND:

Assembly Bill 136 (Chapter 76, Statutes of 2021), amended Welfare and Institutions (W&I) Code §4512 to expand eligibility for Lanterman Developmental Disabilities Services Act (Lanterman Act) services by allowing a child who is three or four years of age to be provisionally eligible for regional center services under specified conditions.

To be provisionally eligible, a child is not required to have one of the developmental disabilities listed in W&I Code §4512(a)(1). A child exiting Early Start may be eligible for Lanterman Act services under the provisional eligibility criteria. Likewise, a child who is three or four years of age who did not receive Early Start services, may be provisionally eligible. Similar to individuals who are eligible pursuant to W&I Code §4512(a)(1), a child who is determined to be provisionally eligible will receive Lanterman Act services determined appropriate through the Individual Program Planning process.

### METHODOLOGY:

The estimate assumes approximately 4,000 children will meet the provisional eligibility criteria in fiscal year (FY) 2021-22 and increase to 4,300 children in FY 2022-23. The Department estimates regional centers will need 64 Service Coordinators and approximately seven supervisors statewide at an annual cost of \$7.6 million in FY 2021-22 and increase to 69 Service Coordinators and approximately seven supervisors statewide at an annual cost of \$8.1 million in FY 2022-23.

## Service Provider Rate Reform

### BACKGROUND:

As required by Welfare and Institutions Code Section §4519.8, the Department submitted a service provider rate study to the legislature in March 2019. Section 4519.10 was added by Assembly Bill 136 (Chapter 76, Statutes of 2021), specifying the timeline for implementation of rate increases beginning in fiscal year (FY) 2021-22, which will include a quality incentive program, create an enhanced person-centered outcomes-based system, and be fully implemented by July 1, 2025.

Effective April 1, 2022, the Department will implement the first rate adjustment for applicable service providers that is 25 percent of the difference between a provider’s rate in effect March 31, 2022 and the fully-funded rate model.

Effective July 1, 2023, the Department will implement the second rate adjustment for applicable service providers that is an additional 25 percent of the difference between a provider’s rate in effect March 31, 2022 and the fully-funded rate model.

Effective July 1, 2025, the Department will implement the fully-funded rate models using two payment components, a base rate equaling 90 percent of the rate model, and a quality incentive payment, equaling up to 10 percent of the rate model.

Prior to the fully-funded rate model, the Budget plan includes separate funding for a quality incentive program that moves California’s developmental services system from a compliance-based system to an outcomes-based system.

Incentive Payment	
FY 2022-23	\$45,833
FY 2023-24	\$91,667
FY 2024-25	\$137,500
FY 2025-26	10 percent of the rate model

### METHODOLOGY:

The estimate includes regional center operations funding to support approximately 105 positions for implementation of rate adjustments and models.

The purchase of service estimate is based on funds needed to adjust applicable service provider rates by April 2022 to reflect 25 percent of the difference between the rate in effect March 31, 2022 and the rate model.

## Early Start Eligibility

### BACKGROUND:

The Department proposes to amend the criteria to qualify for early intervention services through the Early Start Program from a 33 percent delay to a 25 percent delay in one or more developmental areas, separating communication delays into expressive and receptive categories, and identifying fetal alcohol syndrome as a risk factor for developmental disabilities. Developmental delay in infants and toddlers refers to the significant difference between the expected level of development for a child’s age and his/her current level of functioning, as determined by a multidisciplinary team of qualified personnel, including the parents.

The change in eligibility criteria addresses the changing needs of infants and toddlers, including those who could be at risk of experiencing a substantial developmental delay due to the impact of social isolation and other factors resulting from the pandemic.

### METHODOLOGY:

The estimates assume the count of children who were determined not eligible for early intervention services could represent increased enrollment in the program.

## Annual Family Program Fee and Family Cost Participation Program

### BACKGROUND:

The Department proposes a temporary suspension of assessments and collections of the Annual Family Program Fee (AFPF) and the Family Cost Participation Program (FCPP) for families at specified income levels above the Federal Poverty Line (FPL). Parents of children under the age of 18 who live at home and receive qualifying services from a regional center whose adjusted gross family income is at or above 400 percent of the federal poverty level are assessed an annual fee. The AFPF fee received is deposited into the Program Development Fund. Amounts received are then utilized to provide resources needed to initiate new programs which are consistent with the State Plan (Welfare and Institution Code §4677, §4784, and §4785). The FCPP, implemented by the regional centers, is established for the purpose of assessing a cost participation to parents of children who receive three specific regional center services: day care, respite, and/or camping.

The AFPF and the FCPP have been suspended (e.g. no collections, assessments, or requirement for families to share in the cost of services) through Department directive authority during the COVID-19 Pandemic. The proposed statutory changes for both programs would continue the suspension for six months, through December 31, 2022. The programs would resume assessments and collections beginning on January 1, 2023, at a revised income assessment starting at 600 percent of FPL. Proposed statutory changes require the Department to collaborate with stakeholders to put forward a streamlined cost-sharing alternative as part of the 2024 Governor’s Budget.

### METHODOLOGY:

The Department is not requesting a General Fund backfill due to the loss of revenues. The Program Development Fund currently has a sufficient fund balance to support projected expenditures.

### REASON FOR CHANGE:

This is a new policy.

## American Rescue Plan Act - IDEA Part C

### BACKGROUND:

Part C of the Federal Individuals with Disabilities Education Act (IDEA) funds grants to assist states in providing early intervention services (also known as Early Start in California) for infants and toddlers. The federal American Rescue Plan Act (ARPA), signed into law on March 11, 2021, includes one-time supplemental grant funding under Part C of IDEA that was appropriated through the 2021 Budget Act. The Early Start ARPA (ES ARPA) funds may be used for any allowable purpose under Part C of the IDEA, including the direct provision of early intervention services to infants and toddlers with disabilities and their families, and implementing a statewide, comprehensive, coordinated, multidisciplinary, interagency system to provide early intervention services. ES ARPA funds are available for expenditure between July 1, 2021, and September 30, 2023, and must be liquidated by January 28, 2024.

On May 2, 2022, the United States Department of Education notified the Department that ES ARPA funds would be increased by \$2.9 million. The Department plans to submit a Control Section 28.00 request notification and a budget revision for FY 2021-22 to reflect this increase to align with the revised grant award.

### METHODOLOGY:

Based on stakeholder feedback, the Department will utilize the ES ARPA funds to improve accessibility to the Early Start Program (Part C) and the transition to special education (Part B).

- **Family wellness pilot program (\$7 million)**  
Pilot culturally and linguistically sensitive supports to parents facing stress associated with their child's recent diagnosis of a developmental disability.
- **Develop culturally and linguistically sensitive services (\$4.5 million)**  
Provide training opportunities for Early Start providers in areas that enhance participant outcomes such as addressing implicit bias, adverse childhood experiences and toxic stress, and practicing reflective supervision training. Establish a scholarship and education stipend program to increase the availability of a provider network that reflects the cultural and linguistic diversity of the community.
- **Outreach and education to underserved populations (\$4.2 million)**  
Establish a grant program for targeted and culturally sensitive outreach, leveraging established coordination to support associated activities and effectiveness. Pilot a partnership program between counties and regional centers to train professionals and increase awareness of the Early Start program. Increase capacity and diversify community participation to the Interagency Coordinating Council to support outreach activities and effectiveness.
- **Technology to improve access to the Early Start program (\$1.3 million)**  
Develop options to facilitate family self-referrals to Early Start, fund purchase of early intervention assessment tools and/or expand availability of screening devices, and provide technology equipment to families who live in areas with low provider capacity for remote access to assessments and services.

## American Rescue Plan Act - IDEA Part C

### METHODOLOGY (CONTINUED):

- **Increase technical assistance and monitoring (\$0.5 million)**  
Enhance oversight, support and monitoring of the Early Start program.
- **Initiatives in collaboration with the Department of Education (\$6.5 million)**  
DDS continues to partner with the Department of Education to support initiatives that address systemic challenges, including difficulties experienced by many families during the transition process from Early Start (ES) to special education services.
- The Department will take into consideration stakeholder input in determining how to direct the additional \$2.9 million ES ARPA funds.

### REASON FOR CHANGE:

The increase from Governor’s Budget is due to an increase in the ARPA Part C grant award.

## General Fund

### BACKGROUND:

The General Fund (GF) is the main operating fund of the State. It accounts for transactions related to resources obtained and used for those services that do not need to be accounted for in another fund.

### METHODOLOGY:

The Department's appropriation for GF consists of two components:

(1) GF Match and (2) GF Other. The detail of these two components are as follows:

		<b>FY 2021-22</b>	<b>FY 2022-23</b>
<ul style="list-style-type: none"> <li>• GF Match</li> </ul>		<b>\$2,985,812</b>	<b>\$3,742,221</b>
This portion of GF is required to use as a match to reimbursements received from the Department of Health Care Service (DHCS). These reimbursements are originally funded by the federal government and passed through DHCS (the federally recognized single state agency for Medicaid). The federal financial participation (FFP) costs are established by utilizing the Federal Medical Assistance Program (FMAP) percentages. They are as follows:			
	GF %		
Home and Community-Based Services (HCBS) Waiver	50.00%	\$2,256,015	\$2,801,286

## Home and Community-Based Services Waiver

### BACKGROUND:

The Home and Community-Based Services (HCBS) Waiver program enables the Department to provide a broad array of services to eligible individuals in their communities who would otherwise require a level of care provided in an intermediate care facility for individuals with developmental disabilities.

The expenditures for HCBS Waiver reimbursements are in all the Purchase of Services budget categories, except Medical Facilities.

### METHODOLOGY:

The fiscal is based on calendar year 2021 Medicaid Waiver Total Billed Dollar Amounts and Client Counts report.

## Home and Community-Based Services Waiver Administration

### BACKGROUND:

The Home and Community-Based Services (HCBS) Waiver enables the Department to provide a broad array of home and community-based services to eligible individuals who, without these services, would require the level of care provided in an intermediate care facility for individuals with developmental disabilities. These HCBS Waiver Administration funds are for the proper and efficient administration of the HCBS Waiver.

### METHODOLOGY:

#### Direct Support Professional Training:

Welfare and Institutions Code §4695.2 mandates all Direct Support Professional's (DSP) working in licensed Community Care Facilities (CCFs) to either pass a competency test or satisfactory complete each of two consecutive, 35-hour training segments within two years of their hire. The testing and training program are conducted through an Interagency Agreement (IA) with the California Department of Education (CDE). Estimate of the Operations costs covers the challenge tests and training through the IA with CDE.

These costs are reflected under Operations, Projects.</li> </ul>		

#### Staffing for Collection of Federal Financial Participation (FFP) for Contracted Services:

Regional center staff contracts with vendors, liaison with Department experts on changes required to expand and enhance existing billing options and train vendors and regional center personnel involved in the billing processes. These billing processes include entering necessary attendance and other required billing data from paper invoices submitted by vendors, and reviewing, adjusting, and/or correcting attendance data after it is uploaded to the Uniform Fiscal System. These resources allow the State to collect HCBS Waiver Administration reimbursements.

## Medicaid Administration

### BACKGROUND:

#### **Clinical Support Teams and Senate Bill (SB) 1038 Health Reviews (Regional Center Operations)**

Clinical Support Teams assist the regional centers to adequately monitor the health care of consumers with severe behavior and/or medical problems, by providing health-related consultation to consumers, their families, providers, and other community health professionals, completing mortality reviews following consumer deaths, and assuring health care access and advocacy for consumers.

In addition, clinical support teams complete yearly reviews of medications, health care plans, and behavior plans for all consumers in community care facilities and in supported and independent living arrangements. Clinical teams also review circumstances leading to all deaths of these consumers.

Pursuant to SB 1038 (Chapter 1043, Statute of 1998), regional center physicians and nurses (with clerical support) provide medical reviews for the remainder of the community consumers who are not receiving medical reviews from the clinical support teams.

These activities are eligible for federal Medicaid Administration (MA) reimbursement.

#### **Compliance with Home and Community-Based Services (HCBS) Waiver Requirements (Regional Center Operations)**

Regional center physicians and psychiatrists perform activities, including clinical consultation, monitoring, and review of consumers medications, to maintain regional center compliance with the HCBS Waiver.

#### **Developmental Center Closure-Ongoing Workload**

Funding includes salaries, benefits, and operating expenses and equipment for the regional center positions associated with the closure of the developmental centers and the transition of individuals to community living arrangements. Regional centers will continue to provide support and monitoring of individuals who have moved into the community. This includes, but is not limited to, coordination of clinical health and dental services, and quality assurance and management reviews. These positions include quality assurance management, healthcare community specialists, nurse and oral health consultants, service coordinators, clinical support teams and administrative assistants.

## Targeted Case Management

### BACKGROUND:

The Targeted Case Management (TCM) program provides matching federal Medicaid funds for case management services provided by a regional center for specific client groups. There are approximately 247,990 Medi-Cal eligible persons in the regional center (RC) system as of March 3, 2022. Federal legislation enacted in 1986 defined these case management services as services which "...will assist individuals...in gaining access to needed medical, social, educational, and other services". This program provides federal financial participation (FFP) for most of RC case managers time spent on Medi-Cal eligible activities.

### METHODOLOGY:

The fiscal is developed using the TCM RC Billed Units report dated March 3, 2022, for the period of January 2021 – December 2021.

## Title XX Block Grant

### BACKGROUND:

The State has received federal Title XX Block Grant funds for social services programs since 1981, and the funds are administered by the Department of Social Services (DSS). Although each state has wide discretion in determining the range of services to be provided and how the funds are to be distributed, federal statute establishes five service goals as follows:

- Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency;
- Achieving or maintaining self-sufficiency, including the reduction or prevention of dependency;
- Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating, or reuniting families;
- Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care; and
- Securing referral or admission for institutional care when other forms of care are not appropriate.

Temporary Assistance for Needy Families (TANF): Title XX Block Grants funds are available for regional center expenditures for individuals under age 18 whose family income is less than 200 percent of the income poverty line (as defined by the federal Office of Management and Budget) applicable to a family of the size involved.

### METHODOLOGY:

The Department's portion of the Title XX Block Grant is determined by DSS. There are no state matching requirements for these funds.

## Intermediate Care Facility – Developmentally Disabled State Plan Amendment

### BACKGROUND:

In 2007, the Department, in conjunction with the Department of Health Care Services, submitted a State Plan Amendment (SPA) seeking federal financial participation (FFP) for the Day Programs and Transportation Services. The services provided are for consumers residing in Intermediate Care Facility - Developmentally Disabled (ICF-DD) settings. The Centers for Medicare & Medicaid Services approved the SPA on April 14, 2011, retroactive to July 1, 2007.

### METHODOLOGY:

The total expenditures for adult day treatment and non-medical transportation services received by regional center consumers residing in an ICF-DD are based on actual expenditures from calendar year 2021.

## **Intermediate Care Facility – Developmentally Disabled Quality Assurance Fees**

### **BACKGROUND:**

To realize the federal financial participation (FFP) associated with the Intermediate Care Facilities - Developmentally Disabled (ICF-DD) State Plan Amendment, there are administrative costs for regional centers (RC).

### **METHODOLOGY:**

- The fiscal is developed using the State Claims Purchase of Services (POS) Claims data file, dated February 2022, based on 2021 actuals.
- ICF-DD Administrative Costs and Quality Assurance Fees (QAF) are set by the Department of Health Care Services (DHCS).
- RC administration costs are 1.5 percent of the costs of Day Programs and Transportation expenditures.
- ICF-DD administration costs are 1.5 percent of the costs of Day Programs and Transportation expenditures for both the RC and ICF-DD.
- POS costs for Day Programs and Transportation total \$109.8 million. QAF is \$10.5 million.
- FY 2021-22 and FY 2022-23: Total billing costs are \$1.6 million for regional center administration, \$1.7 million for ICF-DD administration, and \$7.2 million QAF.

## 1915(i) State Plan Amendment

### BACKGROUND:

Section 6086 of the Deficit Reduction Act of 2005, (Public Law 109-171) established an optional Medicaid benefit giving states a new method for covering Home and Community-Based services for Medicaid beneficiaries beginning in January 2007. To date only a few other states have exercised this option for mental health benefits delivery. The Department in a joint effort with the Department of Health Care Services (DHCS), submitted a 1915(i) State Plan Amendment (SPA) to the Centers for Medicare & Medicaid Services (CMS) to be effective October 2009 to cover habilitation, respite, and other services allowable under a 1915(i) SPA. Subsequent changes to federal law have allowed the Department to seek further expansion of the services covered under the 1915(i) SPA.

## Early Periodic Screening Diagnosis and Treatment

### BACKGROUND:

Early Periodic Screening, Diagnosis, and Treatment (EPSDT) is a Medicaid (Medi-Cal) benefit for individuals under the age of 21 who have full-scope Medi-Cal eligibility. In addition to the regular Medi-Cal benefits, a beneficiary may receive EPSDT Supplemental Services. The Department submitted a State Plan Amendment (SPA 11-040) to the Centers for Medicare & Medicaid Services that will cover some regional center funded services for children under age three that are not eligible for federal reimbursement under other Medicaid funded programs. The SPA 11-040 was approved in October 2015 and is retroactive to October 2011.

### METHODOLOGY:

The estimated budget is based on expenditures from fiscal year (FY) 2020-21. EPSDT funding is only in the Day Programs budget category.

## Department of Health Care Services Behavioral Health Treatment Fee-for-Service

### BACKGROUND:

Senate Bill 870 (Chapter 40, Statutes of 2014) added Welfare and Institutions Code §14132.56 to direct the Department of Health Care Services (DHCS) to implement Behavioral Health Treatment (BHT) services, to the extent it is required by the federal government, to be covered by Medi-Cal for individuals up to the age of 21.

DHCS obtained approval from the Centers for Medicare & Medicaid Services (CMS) to include BHT services as a Medi-Cal benefit in January 2016. Individuals who were receiving BHT services through the regional centers became eligible to receive these services under the Medi-Cal benefit.

The estimate reflects costs of BHT services for consumers enrolled in Fee-for-Service Medi-Cal. These children receive services through the regional centers, and DHCS reimburses the Department for the related expenditures.

### METHODOLOGY:

Full year costs for these consumers were estimated based on actual fiscal year (FY) 2020-21 and FY 2021-22 data.

### EXPENDITURES:

## Self-Determination Program Waiver

### BACKGROUND:

On December 31, 2014, the Department submitted a Home and Community-Based Services (HCBS) Waiver application to Centers for Medicare and Medicaid Services (CMS) seeking federal funding for the Self-Determination Program (SDP). Under the authority of Senate Bill (SB) 468 (Chapter 683, Statutes of 2013) and upon CMS approval, the Department is implementing the SDP, allowing regional center consumers and their families more freedom, control and responsibility. The SDP waiver was approved by the CMS on June 7, 2018. Participants can only purchase services and supports that are approved by the federal government and listed in the SDP waiver.

### METHODOLOGY:

Fiscal Year (FY) 2020-21 actual Self-Determination Program expenditures and client counts are used in forecasting SDP. Funding was distributed to each budget category based on the percent of HCBS waiver expenditures by budget category. See the HCBS Waiver methodology page in Fund Sources for actual percentages.

## Program Development Fund/Parental Fees

### BACKGROUND:

Parents of children under the age of 18 who receive 24-hour out-of-home services provided by the State, and purchased with state funds through a regional center, are required to pay a fee depending on their ability to do so. Similarly, parents of children under the age of 18 who live at home and receive qualifying services from a regional center whose adjusted gross family income is at or above 400 percent of the federal poverty level are required to pay an annual fee. The Department deposits parental fees received into the Program Development Fund. Amounts received are then utilized to provide resources needed to initiate new programs which are consistent with the State Plan (Welfare and Institution Code §4677, §4784, and §4785).

### METHODOLOGY:

Fiscal Year (FY) 2021-22 reflects revenue adjustments from COVID-19, Executive Order N-25-20, and resulting waivers.

## Developmental Disabilities Services Account

### BACKGROUND:

The Developmental Disabilities Services Account is used as a depository for application fees collected by the Department for reviewing and approving housing proposals pursuant to Senate Bill (SB) 1175 (Chapter 617, Statutes of 2008).

These costs are reflected in the review of SB 1175 Housing Proposals, under Operations, Projects.

### METHODOLOGY:

Based on historical and current data, the Department is authorized to receive housing proposals, including application fees totaling \$150,000.

## Mental Health Services Fund

### BACKGROUND:

Proposition 63, also known as the Mental Health Services Act (MHSA), imposes an additional tax on taxable income over \$1.0 million to provide funds to expand services and develop innovative programs. Consistent with the requirements of the MHSA, the Department funds regional centers to implement projects with community partners that focus on prevention, early intervention, and treatment for children and adults who are dually diagnosed (i.e. have a developmental disability and a mental illness).

### METHODOLOGY:

Expenditures are set amounts and consistent with prior year.

## HCBS ARPA Spending Plan

### BACKGROUND:

On March 11, 2021, President Biden signed American Rescue Plan Act of 2021 (ARPA) (Pub. L. 117-2). Section 9817 of the ARPA provides qualifying states with a temporary 10 percentage point increase to the federal medical assistance percentage (FMAP) for certain Medicaid expenditures for Home and Community-Based Services (HCBS) programs from April 1, 2021, through March 31, 2022. In accordance with the Centers for Medicare & Medicaid Services (CMS) guidance related to ARPA Section 9817 issued on May 13, 2021, through the State Medicaid Director Letter numbered 21-003 (SMD #21-003), on July 12, 2021, California submitted its preliminary HCBS spending plan to CMS. This spending plan targets investment in a number of initiatives, across a range of state HCBS programs to build a modern, inclusive HCBS system that provides robust health and human services to California's most vulnerable residents, in their communities, in ways that ensure that California's HCBS workforce has the training and support necessary to provide the highest level of service to those in their care. This spending plan reflects stakeholder feedback, incorporating a number of suggestions from advocates, providers, consumers, caregivers, community-based organizations, managed care plans, and foundations, provided from March through June 2021. The state's spending plan also reflects priorities from the state Legislature. Further, the initiatives included in this plan will be sustained through many ongoing investments, reflecting the collective vision of the state and its stakeholders.

### METHODOLOGY:

The HCBS ARPA Spending plan will be funding four Local Assistance programs over a three-year timeframe in the amount of \$1.5 billion.

- Language Access and Cultural Competency, \$45.8 million (\$27.5 million HCBS ARPA, \$18.3 million Reimbursement).
- Coordinated Family Support Services, \$41.7 million (\$25.0 million HCBS ARPA, \$16.7 million Reimbursement).
- Social Recreation and Camping Services, \$121.1 million (\$78.2 million HCBS ARPA, \$42.9 million Reimbursement).
- Service Provider Rate Reform, \$1.3 billion (\$866.6 million HCBS ARPA, \$449.5 million Reimbursement).
- Enhanced Community Integration for Children and Adolescents, \$12.5 million (\$12.5 million HCBS ARPA).

## **Early Start Part C Grant Federal Funds/Early Start Family Resource Center**

### **BACKGROUND:**

Part C of the federal Individuals with Disabilities Education Act (IDEA) provides federal grant funding for states to develop and operate early intervention programs for families and their children from birth up to age 3 with developmental delays, disabilities, or conditions which place them at a high risk of disabilities. The program, known as Early Start in California, is administered according to Title 34 of the Code of Federal Regulations, §303.1 through §303.654. The program is also administered according to the California Early Intervention Services Act (CEISA) and Title 17 of the California Code of Regulations, §52000 through §52175.

California has designated the Department to act as its lead agency for preparing the annual grant application and for receiving and administering federal grant funds. The Department allocates a significant portion of the federal funding to regional centers (RC) for local program operation. In addition, the Department has an interagency agreement with the California Department of Education (CDE) to provide funding for local education agency programs and services in accordance with the CEISA, contained in Title 14 of the Government Code (GC), §95000 through 95029. Further, in accordance with the CEISA, the Department is the lead agency for the administration of the Early Start program, which provides services for infants and toddlers with developmental delays, disabilities, or conditions that place them at risk of disabilities. As noted in GC 95001, family-to-family support, provided through California's network of Family Resource Centers (FRCs), strengthens families' ability to fully participate in service planning and their capacity to care for their infants and toddlers.

### **METHODOLOGY:**

Annual grant amounts are determined by the federal Offices of Special Education Programs (OSEP). The Department received a grant award letter dated July 1, 2021, for federal funding period July 1, 2021, through September 30, 2022.

Additional funds are available in fiscal year (FY) 2021-22 from unspent funding of past grant awards.

The Part C IDEA Grant funds are used to pay costs for the additional federal requirements imposed by the Part C program. Funds are distributed in this order (1) other agencies and (2) RC Purchase of Services (POS). Services and costs for this age group are identified below. Costs for POS expenditures are already included in the forecasts for each of the POS budget categories, in the POS section of the Estimate.

## Foster Grandparent Program

### BACKGROUND:

The Foster Grandparent Program (FGP) is a federal grant which provides men and women aged 55 and older, the opportunity to serve their community as tutors and mentors to children and youth under the age of 22 who have developmental disabilities and exceptional needs and being served by a regional center. Foster grandparents volunteer in community schools, Head Start centers, and pre-schools.

### METHODOLOGY:

The funding is based on the Federal Grant.

### **Centers for Medicare & Medicaid Services (CMS) Final Regulations for Home and Community-Based Services (HCBS)**

The Department administers two 1915(c) Waivers (the HCBS Waiver for Persons with Developmental Disabilities and the HCBS Waiver for the Self-Determination Program) and a 1915(i) State Plan program. These programs enable the State to receive federal funding for services provided to approximately 230,000 consumers.

In early 2014, CMS published final regulations affecting 1915(c) Waiver programs, 1915(i) State Plan programs, and 1915(k) Community First Choice State Plans for HCBS provided through Medicaid. The purpose of the regulations is to provide services to individuals in HCBS settings that are integrated and support full access to the community. Originally, CMS required states to comply with the new federal regulations by March 17, 2019. However, on May 9, 2017, CMS notified states that given the difficult and complex nature of achieving compliance, the compliance date was extended to March 17, 2022. On July 14, 2020, in response to the COVID-19 public health emergency, the compliance deadline was extended again to March 17, 2023.

On February 23, 2018, CMS granted initial approval of California's Statewide Transition Plan (STP) and the state is working toward submitting the final transition plan to CMS for approval within the next several months. The STP describes at a high level, California's overall commitment to, and plan for, achieving compliance including the potential need for changes in statute and/or regulation to comply with federal regulations. Included in the STP is a description of the process to assess settings where services are provided to determine what changes, if any, are needed for providers to comply with the HCBS regulations. The setting assessment process began in January 2020, with the provider self-assessment completed in August 2020. The validation of the assessments is anticipated to continue through mid-2022. Efforts to provide training and information for all stakeholders regarding the HCBS regulations and person-centered planning requirements continue; and as with prior years, the May Revision includes \$15 million to continue assisting providers in making changes needed to comply with the HCBS regulations. CMS requires ongoing monitoring of compliance. Funding for providers continues to be an important support in achieving compliance through training on person-centered planning and resources specific to community integration, individual choice and autonomy, and competitive integrated employment opportunities.

## Canyon Springs Community Facility

### BACKGROUND:

Canyon Springs Community Facility (CSCF) opened in December 2000 and is designed to provide residential services, treatment, and training for up to 56 adults who have developmental and intellectual disabilities. There are three Immediate Care Facilities (ICF) units on campus that provide services to assist these individuals to lead more independent, productive, and dignified lives. The facility staff focus on the development of the individuals' ability to manage their lives through various treatment/training opportunities such as behavioral supports and replacement behavior teaching, coping skills, life skills, supportive counselling, vocational skills, adult education, recreational skills, interpersonal relationship development, community integration and encouragement of healthy life choices. CSCF operation expenditures are funded through General Funds, Reimbursements and Lottery Funds.

### METHODOLOGY:

There are two types of staffing needed to operate the facility: Unit and Program Support Staff. Unit Staffing includes Clinical and Medical staff that are qualified health care professionals that provide direct patient care services. These staff include, but are not limited to, Physicians and Surgeons, Psychologists, Pharmacists and Nursing. There are 155 Clinical and Medical staff at the facility.

Program Support Staffing may provide direct and/or indirect support services to the individuals. There are many areas that have support staff and these areas include Administration, Personnel, Maintenance, and Food Service. There are 81 Program Support staff at the facility.

## Fairview Developmental Center

### BACKGROUND:

Fairview Developmental Center (FDC) officially opened on January 5, 1959, under the name of Fairview State Hospital, located in Costa Mesa, Orange County, California. FDC is now in warm-shutdown until a site assessment is completed to inform the disposition of the property. The site assessment has been delayed because of campus activities supporting the state’s COVID-19 response.

### METHODOLOGY:

The warm shut-down expenditures include personal services and operating expenses and equipment (OE&E) for 52 staff. The Department is continuing to operate FDC in warm-shutdown in FY 2021-22 and FY 2022-23.

## Porterville Developmental Center

### BACKGROUND:

Porterville Developmental Center (PDC) opened in 1953 in Tulare County to provide person-centered support and treatment programs to the individuals served, embracing change and opportunities while continuing partnerships with stakeholders. Currently, through its Secure Treatment Program (STP), the facility provides 24-hour residential services and medical treatment for individuals 18 years or older with developmental disabilities who are incompetent to stand trial. The STP is 100 percent General Fund as these services are not eligible to receive federal assistance.

### METHODOLOGY:

There are four types of staffing needed to effectively operate PDC:

- Unit Staffing: consist of 830.8 staff, included but not limited to, Physicians and Surgeons, Psychologists, Pharmacists, Nursing, and various support staff.
- Program Support: consist of 517.3 staff who provide direct and/or indirect support services to the individuals. Areas that support staff work, include but are not limited to, Administration, Personnel, Office of Protective Service, Maintenance and Food Services, etc.
- Intensive Behavioral Treatment Residence (IBTR): consists of 75.5 staff who serves individuals that require a highly structured treatment setting. Services are provided for both male and female individuals whose functional level of intellectual disability ranges from moderate to borderline.
- Forensic Team: consists of 4 Senior Psychologists who work with individuals that are in the mild to moderate range of intellectual disability, have come in contact with the legal system, and have been determined to be incompetent to stand trial. The Forensic Team assesses individuals' ability for trials. These resources were requested in the 2020 May Revision as part of a coordinated response to the *Stiavetti v. Ahlin* (2016) lawsuit, and to lower the number of individuals on the waiting list for admission to Porterville's STP.

## Stabilization Training Assistance Reintegration (STAR) and Crisis Assessment Stabilization Teams (CAST)

### BACKGROUND:

The State-Operated Stabilization Training Assistance Reintegration (STAR) homes are committed to affording each consumer a safe and nurturing environment where opportunities for growth, realization, self-expression, and goal achievement is celebrated. The homes strive to empower individuals to be self-reliant as their skills, strengths, perseverance, and abilities allow so they can transition from crisis stabilization services to long-term community living. STAR services are provided based on an individualized Needs and Services Plan (NSP), which is developed through a team approach using a person-centered planning process that supports the consumer’s positive control and self-determination of their own lives. Depending on the supports identified in the NSP, services may include health care, education, work training, employment, self-help training, leisure activities, behavior management, and socialization skills development.

State-operated mobile crisis services provided by the Crisis Assessment Stabilization Team (CAST) is designed to provide partnerships, assessments, training, and support to individuals continuing to experience crises after regional centers have exhausted all other available crisis services in their catchment areas. CAST also serves individuals who are at risk of having to move from their family home or out of home placement and admitted to a more restrictive setting.

### METHODOLOGY:

The staffing needed to operate two programs, STAR and CAST, includes Psychologists, Behavior Specialists, and Nursing. There are 199.75 staff at the STAR homes; there are 21.75 CAST staff in the program. CAST staffing may provide direct and/or indirect support services to the individuals who are not able to use other resources.

## Ongoing Costs

### BACKGROUND:

#### Regional Resource Development Project (RRDP)

The Regional Resource Development Project (RRDP) was initially piloted in 1987 and authorized by the [Lanterman Developmental Disabilities Services Act](#) in September 2002. The RRDPs are mainly designed to assist individuals in the transition process from the state operated facilities to community living. This includes:

- Assist consumers and their interdisciplinary planning teams with planning and transition from State Operated Facilities (SOF) to community living alternatives and provide post placement follow up.
- Assess consumers experiencing difficulty in their community environment and identify possible supports to preserve their community living arrangements.
- Arrange for and conduct an assessment of individuals in need of acute crisis services following an initial review and notification by the regional centers.
- Assist in the transition to, or preservation of, community living arrangements by providing focused training on specific needs to consumers, families, service providers and regional center staff.
- Communicate with the regional centers regarding the development of the annual Community Placement Plan.
- There is a total of 16 RRDP staff between the Northern and Southern regions. The North RRDP staff provides continued support to the individuals who transitioned from the Sonoma's Developmental Center into community living, and the individuals that will transition from North Stabilization, Training, Assistance and Reintegration (STAR) homes. The South RRDP provides continued support to the individuals who transitioned from Fairview's Developmental Center, and individuals who will transition from the South STAR homes, Desert STAR and Canyon Springs Community Facility.

#### Workers' Compensation

The Department continues to pay for Workers' Compensation claims from open and closed facilities. The closed facilities are: (1) Agnews, (2) Sierra Vista, (3) Stockton, (4) Camarillo, (5) Lanterman, (6) Sonoma, and (7) Fairview. The State Compensation Insurance Fund (SCIF) manages claims, bills the Department monthly for both Temporary and Permanent disability benefits, supplemental job displacement benefits, actual medical costs, any Compromise and Release settlement payments, and the SCIF service fee.

#### Post Closure

Lump sum funding provided in previous budgets was unused by SOF employees who joined the Community State Staff Program (CSSP) instead of separating or transferring.

## Ongoing Costs

### METHODOLOGY:

RRDP expenditures are developed using the California Department of Human Resources (CalHR) state classifications' salary, staff benefits, and average operating expenses.

Workers' Compensation expenditures are based on the analysis of several complete fiscal years to determine baseline expenditures related to Workers' Compensation costs throughout the SOF program.

Post Closure expenditures are based on an analysis of the lump sum for accrued leave balances for employees over the age of 50, combined with the average number of separations over several fiscal years.

## Control Section Adjustments

### BACKGROUND:

Departmental appropriations are adjusted annually to reflect the State's costs through the executive order process. Control Section 3.60 adjusts the Department's appropriation to reflect the State's share of retirement costs. Control Section 4.05 permanently reduces the Department's Operating Expense and Equipment budget.

Employee Compensation adjustments approved through the collective bargaining process, and for employees excluded from collective bargaining as approved by the California Department of Human Resources, are referred to as Item 9800 adjustments. Item 9800 contains general salary increases, shift differentials, retention incentives, and various changes to the employers' share of staff benefits.

### METHODOLOGY:

- Control Section 3.60 Retirement Adjustments  
Based on an analysis of positions, employee retirement categories, and retirement contribution amounts, the Department is reflecting lower expenditures of \$500,000 (\$500,000 GF) in FY 2021-22 and FY 2022-23 for retirement adjustments.
- Control Section 4.05 Ongoing Expenditure Reductions  
The Department is reflecting a reduction of \$2.0 million (\$1.0 million GF) in FY 2021-22 and FY 2022-23.
- Item 9800 Employee Compensation Adjustments for the Department reflects an increase of \$10.7 million (\$9.7 million GF) in FY 2021-22 and \$11.2 million (\$10.2 million GF) in FY 2022-23.
- Control Section 26.00 Budget Revision – Leave Buy-Back Program Participation  
The Department is reflecting a transfer of \$3.0 million GF from State Operated Facilities to Headquarters in FY 2021-22.

<b>TOTAL CONTROL SECTION ADJUSTMENTS</b>	<b>\$5,162</b>	<b>\$8,644</b>

## Control Section Adjustments

### REASON FOR CHANGE:

The change in FY 2021-22 from the Governor's Budget is due to the transfer for anticipated participation in leave buyback.

The change from FY 2021-22 to FY 2022-23 is to comply with Control Section adjustments.

## Inter-Agency Agreement (IAA) with DGS

### BACKGROUND:

In April 2019, the Department of General Services (DGS) proposed a three-year inter-agency agreement (IAA) to reimburse the Department for the costs associated with operations, maintenance, and partial decommissioning at Sonoma Developmental Center beginning July 1, 2019. The staff needed are those who manage the water treatment plant, operations and maintenance. The contract started in FY 2019-20 and was to end in FY 2021-22. Due to the unforeseen pandemic, the group responsible for stakeholder engagement and development of proposed site usage had multiple delays. The ability to meet and collaborate ideas for the property use was hindered but currently is back on track.

### METHODOLOGY:

In FY 2021-22, the total expenditures for the facility are \$6.4 million comprised of the following: \$4.4 million in personal services and \$2.0 million for OE&E.

In FY 2022-23, the Department proposes to extend the IAA for one additional fiscal year and keep the level expenditures for the facility the same as FY 2021-22.

## COVID-19 Response

### BACKGROUND:

On March 4, 2020, Governor Gavin Newsom declared a State of Emergency for California in response to the global COVID-19 pandemic. As a result of COVID-19, the Department has experienced increased costs. These costs include the development of “surge sites” to serve consumers diagnosed with, exposed to, or at high risk of COVID-19.

The Budget Act of 2021 included one-time funding to support short-term care for an average of 20 beds at Fairview Developmental Center (FDC) and 10 beds at Porterville Developmental Center (PDC) to address the unique needs of individuals who have intellectual/developmental disabilities (I/DD).

### METHODOLOGY:

The Department will contract with outside vendors to provide services to individuals who have I/DD and those in the community who are COVID-positive. The contract costs will cover personal services along with operating equipment and expenses expenditures.

	<u>FY 2021-22</u>	<u>FY 2022-23</u>
Fairview Developmental Center	\$10,819	\$0
Porterville Developmental Center	\$4,206	\$0
<b>TOTAL EXPENDITURES</b>	<b>\$15,025</b>	<b>\$0</b>

### REASON FOR CHANGE:

There is no change in FY 2021-22 from the Governor’s Budget.

The change from FY 2021-22 to FY 2022-23 is due to one-time funding in FY 2021-22.

## Retention Stipend Reappropriation

### BACKGROUND:

The 2016 Enacted Budget appropriated \$20.1 million to provide developmental center employees at Sonoma, Fairview, and Porterville General Treatment Area with a retention stipend during the closures in order to provide continuity of habilitation and treatment services and ensure the health and safety of the clients. This funding was provided to the Department with five-year appropriation authority to allow payment upon separation from the closed developmental center facility. Sonoma and Fairview Developmental Centers have closed but are still in warm-shutdown, creating a delay in final separation for the remaining staff.

The 2021-22 Governor’s Budget proposed a reappropriation of \$500,000 GF due to delays in final disposition of Fairview and Sonoma Developmental Center (DC) properties.

The Department now estimates only partial expenditure of the retention stipend in FY 2021-22, as COVID-19 responses delayed the final disposition, and that a majority of warm-shutdown staff will continue working through June 30, 2023.

### METHODOLOGY:

The fiscal is determined based on the number of remaining staff, less staff attrition for retirement or transfer, as the warm-shutdown is extended another year. The amount for carryover assumes a certain number of staff will not retire or transfer in FY 2021-22.

### REASON FOR CHANGE:

There is no change in both fiscal years.

### EXPENDITURES:

FY 2021-22	<u>Governor’s Budget</u>	<u>FY 2021-22</u>	<u>Difference</u>

## Youth Returning from Out-of-State Foster Care

### BACKGROUND:

Historically, when youth with complex behavioral, medical, and mental health needs in the foster care system cannot be served by in-state placement, counties may place youth in out-of-state facilities. The Department of Social Services conducted a reassessment of these facilities and found violations of California licensure standards resulting in the decertification of facilities. Approximately 10 youths in the decertified out-of-state facilities are anticipated to be eligible for Lanterman Act services and require therapeutic residential environments to support complex developmental and behavioral needs.

### METHODOLOGY:

The expenditures were developed based on five youths receiving supports in Stabilization, Training, Assistance and Reintegration (STAR) residences. The Department anticipates the same expenditures for FY 2022-23.

### REASON FOR CHANGE:

There is no change in both fiscal years.

### EXPENDITURES:

## Deferred Maintenance

### BACKGROUND:

Deferred Maintenance funds are allocated to correct infrastructure deficiencies. State Operated Facilities require routine maintenance and repairs to ensure that facilities remain in acceptable condition to preserve the life of the facilities. When repairs are delayed due to various reasons, these repairs are considered Deferred Maintenance Projects. Departments are appropriated Deferred Maintenance funds to address their infrastructure needs. The funds are one-time, but usually available for expenditure or encumbrance for up to three years.

### METHODOLOGY:

To qualify for the Deferred Maintenance funds, the Department is required to develop and submit a list of projects approved by the Department of Finance. The total expenditures for the projects must not exceed the total amount allocated for that fiscal year.

In FY 2021-22, the Department received a one-time \$5.0 million GF appropriation for Deferred Maintenance projects at the Porterville and Fairview Developmental Centers.

Of the one-time \$10 million GF in Deferred Maintenance appropriated in FY 2018-19, the Department proposes to reappropriate \$750,000 GF to complete the construction phase of replacing the air handlers at the Porterville Developmental Center.

	<u><b>FY 2021-22</b></u>	<u><b>FY 2022-23</b></u>
Porterville Developmental Center	\$4,500	\$750
Fairview Developmental Center	\$500	\$0
<b>TOTAL EXPENDITURES</b>	<b>\$5,000</b>	<b>\$750</b>

### REASON FOR CHANGE:

This is no change in FY 2021-22 from the Governor’s Budget.

The change from FY 2021-22 to FY 2022-23 is due to reappropriation of FY 2018-19 funding.

## Enhanced Federal Funding

### BACKGROUND:

On March 18, 2020, the President signed the Families First Coronavirus Response Act (FFCRA) into law. The FFCRA provides a temporary 6.2 percentage point increase to California’s Federal Medical Assistance Percentage (FMAP) under section 1905(b) of the Social Security Act, effective January 1, 2020. The increase in FMAP applies to the Canyon Springs Community Facility, Stabilization Training Assistance Reintegration (STAR) homes, and Crisis Assessment Stabilization Teams (CAST).

The increase in federal reimbursements is assumed to continue through September 30, 2022.

### METHODOLOGY:

The estimated enhanced FMAP is based on the additional 6.2 percent federal funds participation for eligible costs in fiscal year (FY) 2021-22 and FY 2022-23. The increased federal funds result in corresponding General Fund savings.

### REASON FOR CHANGE:

There is no change in FY 2021-22 from the Governor’s Budget.

The change from FY 2021-22 to FY 2022-23 reflects revised assumptions that the enhanced FMAP is expected to extend through September 30, 2022.

## General Fund

### BACKGROUND:

The General Fund (GF) is used for two purposes: (1) as a match to Title XIX Reimbursement and (2) to pay for non-Medi-Cal eligible resources/services for residents in a state-operated facility (SOF).

### METHODOLOGY:

The Department's appropriation for GF consists of two components: (1) GF Match and (2) GF Other. The detail of these two components are as follows:

	<u>FY 2021-22</u>	<u>FY 2022-23</u>
<ul style="list-style-type: none"> <li> <b>General Fund Match</b>                      This funding is the matching GF to the Medi-Cal Reimbursements received from the Department of Health Care Services (DHCS). These Reimbursements are originally funded by the federal government and passed through DHCS (the federally recognized single state agency for Medicaid).                 </li> </ul>	<b>\$23,888</b>	<b>\$26,271</b>
