

Valley Mountain Regional Center is currently considering residential development in areas where we have immediate and ongoing needs, especially with Children's Residential Homes.

## Children's Residential Homes

### All Counties (Stanislaus, San Joaquin, Amador, Calaveras, Tuolumne)

- **4 Bed Group Home\*** for *females* with moderate to severe behaviors and some medical need (Ambulatory & \*\*\*Non-Ambulatory)
- **4 Bed Group Home\*** for *males* with moderate to severe behavior deficits and/or moderate medical support needs.

*\*Group Home means a facility which provides 24-hour care and supervision to children, provides services specified in this chapter to a specific client group, and maintains a structured environment, with such services provided at least in part by staff employed by the licensee. The care and supervision provided by a group home shall be nonmedical except as permitted by Welfare and Institutions Code Section 17736(b). Since small family and foster family homes, by definition, care for six or fewer children only, any facility providing 24-hour care for seven or more children must be licensed as a group home.*

*\*\*Small Family Home means any residential facility, in the licensee's family residence, that provides 24-hour care for six or fewer foster children who have mental disorders or developmental or physical disabilities and who require special care and supervision as a result of their disabilities.*
